MUNICIPAL MANUAL

City of Calgary

1942

Compiled by and with the
Compliments of
THE CITY CLERK

To Tourists and Visitors

Calgary offers much of interest to visitors. Perhaps no city of its size on this continent possesses such fine stores and business buildings or a larger number of comfortable and beautiful homes. It offers every facility for business or amusement that can be found in much larger cities wherever they may be.

In addition to the Hotel Palliser, one of the finest hosteries on the Continent, there are many other first class hotels, with rates to suit all. Unusual shopping facilities exist and several beautiful modern theatres provide the best there is in drama, vaudeville and pictures.

A drive about the city will be found of interest, and the beautiful residential districts on both the north and south hills should be included, as from them a magnificent view on a clear day can be obtained of the Rockies. The Sarcee Indian Reservation adjoining the city on the southwest provides an interesting drive. St. George's Island and Bowness Parks are specially worthy of a visit.

For the sportsman there is, in season, shooting for duck, chicken and partridge, as well as mountain trout fishing, all within a few hours' drive from the city.

Calgary is at the gateway of the Rocky Mountains National Parks and an extremely interesting and picturesque motor drive of about three hours will take one to Banff (87 miles distant). Lake Louise and the Rockies are also available by motor car. The Banff-Windermere Highway links up with the Grand Circle Tour (Blue Trail), which connects all the scenic attractions in Western America; passing from Calgary south through Glacier Park, (Montana), Yellowstone Park, Grand Canyon (Arizona), Los Angeles and then north through San Francisco, Crater Lake Park, Spokane, Columbia River Valley, (Windermere) and Banff, east to Calgary. The Trans-Canada Highway around the Big Bend of the Columbia River and across the Rocky Mountains to Vancouver, was opened 1st July, 1940; also the Jasper Highway from Banff was opened at the same time.

THE A.M.A. AUTO CAMP is operated by the Young Men's Section of the Board of Trade and is a thoroughly modern Tourist Camp secluded in Stanley Park on the Elbow River on Highway No. 2, immediately south of Calgary. There are 32 cabins, some of which are fully modern, prices ranging from \$1.00 per cabin to \$3.50, according to accommodation required. The camp is equipped with hot and cold showers, laundry, city water and electric light. All cabins having gas stoves. Playgrounds and swimming for the children. Facilities for camping and trailers. The

camp is situated 200 yards west of the highway where quietness and rest are assured. The official A.A.A. appointment. Phone S 0748.

SUNSHINE AUTO CAMP—A beautifully shaded spot along the lovely Elbow River, eight blocks from the Post Office and business centre of Calgary. Fifty Cabins, some fully modern, ranging in price from \$1.00 for two persons, up. Large central building, with showers, toilet, laundry, hot and cold city water, supply store, and gas and oil station on the grounds. Plenty of tent and trailer space, 50c per night. Electric hook-up 25c extra. Gas for cooking. Telephone M 9978.

THE ALBERTA MOTOR ASSOCIATION. For touring information or other assistance, visiting motorists are requested to call at the Club Headquarters, 813a 1st Street East. Secretary, S. W. Cameron. Phones M 7757 and R 1888.

THE CALGARY BOARD OF TRADE. (Chamber of Commerce) maintains offices in the Renfrew Building, 120 7th Avenue West, and the staff is always pleased to give information on commercial, industrial and tourist matters with regard to the City of Calgary and district and the Province of Alberta generally. Telephone M 5163.

GOLF AND COUNTRY CLUB. Located outside Southern City limits at 8th Street West.

MUNICIPAL GOLF CLUB. Located on 24th Street West and 12th Avenue.

REGAL GOLF CLUB. Located on 16th Avenue N.W. and 6th Street N.E.

BOWNESS GOLF CLUB. Located at Bowness Park, outside City limits.

ST. ANDREW'S GOLF CLUB. Located on 24th Street N.W. and 8th Avenue N.W.

EARL GREY GOLF CLUB. Located outside Southern City limits at 18th Street S.W.

INGLEWOOD GOLF CLUB. Located in East Calgary on 18th Avenue East at 20th Street East.

MUNICIPAL AIRPORT. The City of Calgary has a modern airport situated just outside the City Limits to the north within five miles of the centre of the City, situated on the main highway to Edmonton. The airport was loaned to the Dominion Government October 1st, 1940 for the duration of the war.

This airport is used for commercial flying, and is also one of the main Service Flying Schools used in connection with the Empire Air Training Scheme. This project is known as No. 37 and is operated by the Royal Air Force.

The field consists of approximately 640 acres. There are four runways developed,—south-east to north-west, north-east to south-west, north to south, east to west.

The S.E.-N.W., and the N.E.-S.W., and the E.-W. runways are 500 feet wide and over 4,000 feet long with a hard-surfaced strip of 150 feet in the middle of each runway. The north-south runway is 500 feet wide and 3,800 feet long. The taxi strips are also hard-surfaced. The port is fully equipped for night flying with boundary, approach, contact, obstruction and ceiling lights, revolving beacon and an illuminated wind sock. All of this equipment is remote controlled from one or more points.

The traffic at this airport is controlled. Special equipment has been installed and a staff is maintained by the Department of Transport to regulate air traffic to and away from this airport. The Dominion Government maintains a weather bureau at the airport and weather information is available at all times. Trans-Canada Air Lines maintain an office with ground radio equipment, and carry Government mail and also passengers. Phone H 3030 or M 3625 for arrival and departure of planes or information. Calgary is on the main Trans-Canada Air Route and beam facilities are available. A restaurant where meals and refreshments may be secured is maintained on the airport.

Unless on scheduled routes all aircraft at the airport must register at the office of the Airport Manager. All commercial and other aircraft in transit and not operating from this aerodrome must be registered immediately upon arrival and be checked out on departure. Landing fees must be paid at the time of registration. All fees for planes in transit must be paid in cash. Air regulations of 1920 with amendments govern operations on this airport. Left-hand circuit.

No landing fees shall be collected for aircraft in the service of the Department of National Defence or from visiting aircraft of the United States Army, Navy, Marine or Department of Commerce.

The sale of gasoline and oil is restricted to the City of Calgary.

Schedule of fees on application.

Federal Dept. of Transport.
Airport Manager—C. E. Huntley. H 2708.

Airport Supervisor—R. Mackay.
Phone M 1151, Local 30. Airport H 2708.

Office—Utilities Building.
Residence L 1618.

THE INGLEWOOD BIRD SANCTUARY. At the east end of Ninth Avenue within the City Limits and bordering the Trans-Canada or No. 1 highway, is located the four hundred acre Inglewood Bird Sanctuary. For a number of years from three to five thousand ducks and geese have remained all winter at Inglewood where, during stormy weather, they congregate on the well-sheltered spring lake where the water is never colder than 40 degrees. This lake has proved to be so suitable for trout that the Alberta Gov-

ernment have established a $\frac{1}{4}$ -million trout rearing plant there.

Food, which in some seasons amounts to fifty tons of screenings and thirty tons of vegetable scrap, is provided through the generosity of the twenty thousand annual visitors who are surprised and delighted to find examples of most of Canada's ducks and geese so tame they can be readily observed. Many of them, in place of taking flight, will accept food from the hands of visitors which makes Inglewood very popular with the children.

NAMING OF CALGARY

Calgary is named after the old home of Colonel Macleod in the Isle of Mull, Scotland, and was so named in the year 1876 when he was in charge of the North West Mounted Police fort established at the confluence of the Bow and Elbow Rivers. The word "Calgary" is of Gaelic origin and means "Clear Running Water."

LOCALITY AND ADVANTAGES

The City of Calgary is the business centre of the Province of Alberta, and the largest and most important city between Winnipeg and Vancouver. Its location on the C.P.R. main line and C.N.R. line in the foothills of the Rocky Mountains at the junction of the Bow and Elbow Rivers, is picturesque. By reason of its geographical situation, the abundant supply of pure water, the untold wealth of the surrounding country as yet only partly developed, and its cheap electric power, the City offers most desirable inducements for the establishment of manufacturing industries. An extract from "Townsites of the Northwest Territories" reads as follows:—

"At the junction of the rivers (Bow and Elbow) on section 14, is the town of Calgary, which will soon become one of the most important places in the Northwest. Its geographical position, picturesque site, proximity to the Rocky Mountains, access to wood and timber by way of both rivers, and its ample supply of excellent water all contribute to this end. C. E. La Rue, 1883."

At the time the above was written, Calgary had a population of less than 500. Present population, 87,264.

The business section and part of the residential district has spread over the valley which was the original townsite, and has expanded over the surrounding heights, from which views of the Rocky Mountains are obtainable. Calgary is approximately 840 miles west of Winnipeg, 620 miles east of Vancouver, 138 miles north of the boundary line between Canada and the United States of America, and 87 miles from Banff, "The Playground of Canada".

SURROUNDING COUNTRY AND RESOURCES

Tributary to Calgary is a most prosperous agricultural, beef raising and ranching district, in area

some thousands of square miles, and by virtue of the nutritious and abundant grasses growing throughout the surrounding territory, cattle raised in this locality are of the best; and by reason of its favorable climate and fertility of soil, grain and vegetables produced in this district are excellent. (See index "Exhibition."

IRRIGATION AND FARMING

Calgary is the headquarters of one of the largest irrigation projects in the world. Water for irrigating the fertile belt stretching from Calgary north, east and south, is obtained from the Bow River. The head-gates of the main canal are located inside the Eastern City limits. In the agricultural world, Calgary, being the centre of thousands of acres of both irrigated and non-irrigated lands, famous for spring, fall and winter grains of all kinds, vegetables and wild and cultivated grasses, is highly attractive to prospective settlers and investors. As a direct result of this location and the productivity of the surrounding areas, a "Grain" or "Stock" Exchange and a large stock-yard and packing plant were established some years ago. Calgary's importance as a grain centre has been officially recognized by the Government of the Dominion of Canada and the said Government has built a terminal elevator in this city. (See index "Elevator.")

RAILWAYS AND MARKETS

With two transcontinental railways operating into the city, Calgary offers the wholesaler and the retailer great facilities for trade throughout the whole of the Dominion. This, coupled with an ideal location in the heart of a rapidly and ever-growing market, in the centre of tributary lands containing bountiful supplies of raw materials, places Calgary conspicuously before the manufacturer.

MINERALS, ETC.

Untold mineral wealth underlies the soil waiting for time and invested capital ere an idea can be conceived as to the intrinsic value and the benefits which will accrue to Calgary, Canada and the British Empire therefrom. Chief among the minerals and other products of the lower stratas of the earth, found in the Calgary district are iron, lead, coal (bituminous, lignite, anthracite and coking), silicate sand-stone, brick clay and shale, pottery clay, fire clay, etc. Oil of a high grade was, on October 7th, 1913, struck at a depth of 1,562 feet in a well on Section 6, Township 20, Range 2, West of the 5th Meridian, and now known as "Discovery Well," and since, in good quantities, in several other wells. Natural gas is also obtained from these wells, and when treated yields gasoline in payable quantities. The gas (after the gasoline has been extracted) is now "piped" to Calgary gas consumers. The field is now in active process of development, each year seeing more wells being sunk and new areas proven.

THE TURNER VALLEY OIL FIELD

Situated 35 Miles South-West of Calgary.

In the period of 1912-14 this now famous field made its first spectacular appearance. Two wells, drilled there by the Calgary Petroleum Products Limited, and known at that time as the Dingman wells, were brought into production in shallow horizons above the limestone.

After nearly ten years had passed from the 1914 boom, with desultory activity in drilling and minor returns in the way of oil production, Calgary Petroleum Products Limited, now re-organized as Royalite Oil Company, drilled a further well. In doing so, the stage was immediately if not consciously set for the erection of Turner Valley's second spectacular milestone.

The third milestone in Turner Valley's history came early in 1929 when the Home Oil Company's No. 1 well came in as a prolific producer, yielding around 700 barrels per day.

A City of Calgary engineer, R. A. Brown, Senior, after a hard financial struggle during the years of 1935 and 1936, finally begged and borrowed sufficient capital to complete drilling Turner Valley's first well, now famous and known as Turner Valley Royalty No. 1. That strike created the 4th milestone in the success of the field which produces practically 98% of the petroleum product in the Dominion of Canada.

Intensive development took place immediately after this strike. No less than 187 producing wells have been completed, and on May 1st, 1942, 33 wells were drilling. The May allotment—which is to say, what the field has been restricted to produce by the Conservation Board—totals 26,260 barrels per day, which returns approximately \$45,000 daily to the operators.

The field employs 1,770 men. The monthly payroll is approximately \$300,000.00. Practically all employees are contributors to the War Savings Certificate Plan.

Production for the year 1941 was approximately 10 million barrels—an increase of approximately one million over the previous year. Turner Valley is the second largest producing field in the British Empire, Trinidad being in first place.

The cost of drilling each well is approximately \$200,000.00 completed into production at an average depth of 8,200 feet.

The largest producing well in the field on May 1st was Major Oil Investment No. 3 with 872 barrels

per day, followed by Atlas-British-Dominion No. 2 with 750 barrels daily, and in third place, Major Oil Investment No. 2 with 744 barrels.

In addition to the crude wells, there are 26 wells producing 960 barrels of naphtha per day and there are 97 gas wells, the production from which is piped to various absorption plants, and after the naphtha is removed it is used for fuel and power in the field as well as for public service in the City of Calgary and the many surrounding towns.

REFINERIES

At Calgary, the following plants are in operation:

British-American Oil Co.	capacity 5,000 bbls.
Imperial Oil Limited	capacity 7,500 bbls.
Lion Refineries Limited	capacity 600 bbls.
Gas and Oil Products (Hartell)	capacity 2,000 bbls.

DISTRIBUTION

The gasoline products of these refineries are shipped mostly to points in Alberta under a special freight rate east as far as Winnipeg.

INDUSTRIES

The chief industries located in Calgary and district are: Ranching, farming, meat packing and meat products, oil refinery, manufacture of flour, biscuits, breakfast foods, breweries, temperance drinks, cement and cement blocks, rough and finished lumber, wood-working plants, sash and door mills, beds and mattresses, saddlery and leather goods, show cases, tents, confectionery, cigars, soap and similar commodities, ironworks, machine shops and welding, C.P.R. repair shops for western division, liquid air plant, brick-yards, bakeries, dairies and butter, etc.; stockyards, tannery, headquarters for coal companies, horticultural, box factory, Ford assembly plant, automobile repair shops.

HOSPITALS

The General Hospital, instituted October, 1890, incorporated November, 1890, present hospital opened February 1st, 1910. Control: 1890 to 1914 by a Board. 1914 to 1919 by a Board (partly appointed and partly elected). May, 1919 to June, 1934, by the City of Calgary as a City Department. June 1934, by a Board (9 members) appointed by the City Council. Bed capacity: General Hospital, 240; Isolation Hospital, 89.

The General Hospital will be enlarged during the year 1942.

There are, in addition to those above mentioned, a number of privately owned hospitals and nursing homes, the chief of which is the Holy Cross Hospital,

Finances are obtained from patients' fees. City taxation and certain Provincial Government grants.

The Government grants earned in 1941 by the Calgary Hospitals' Board totalled \$37,112.40.

For rates, etc., see index "Hospitals."

The Dominion Government completed and opened in the year 1920 a large modern sanitorium for the treatment of tubercular cases.

In July, 1935, the Alberta Provincial Government assumed full control of this institution, which is situated within a short distance of the Bowness Line of the Municipal Street Railway, at Keith, 7 miles west of the City. It was originally designed to care for returned soldiers.

LIBRARY

Those of our citizens possessing literary tastes may, on becoming members of the Calgary Public Library, have access to various works of literature by the world's best authors. (See index "Library").

JUVENILE COURT, ETC.

The "Children's Aid Department," previously financed largely by the City and controlled by the Provincial Government, is now a department of the City, and as such is administered by the City Commissioners. In its legal operations the Juvenile Court comes within the jurisdiction of the Minister of Health of the province. All cases are first submitted to the Children's Aid Department and sittings of the court arranged by them. The Superintendent is clerk of the court. For particulars re "Juvenile Court" see index.

MUNICIPAL OWNERSHIP

Calgary is essentially a City owned and operated for its citizen's benefit through their elected representatives, and owing to this fact its inhabitants enjoy an excellent service from the various municipal undertakings. Commencing in the year 1899, the City purchased the existing waterworks system. Since that time the Public Utilities of the City have been extended to include Electric Light and Power, and Street Railway Systems.

Calgary has clean and well paved thoroughfares, beautiful residential districts, and business buildings, giving remarkable evidence of substantial growth. Municipally-owned utilities—particulars of which may be found in this publication—Educational buildings, school systems, and above all, a healthy climate.

BRIDGES

A modern reinforced concrete bridge spans the Bow River at Centre Street, Calgary, and bridges of similar construction cross the Elbow at Fourth Street West, and the Bow River at Ninth Street West. A steel bridge spans the Elbow at 25th Avenue and Centre Street South.

METHOD OF CIVIC GOVERNMENT

The "Initiative, Referendum and Recall" is in operation in Calgary. By this means legislation may be initiated by the ratepayers, a referendum demanded on any public question or policy and elected officials recalled. To invoke these powers it is necessary to obtain the signature of qualified voters, equal in number to those cast at the last election for Mayor, in the following percentages: For "Initiative" or "Referendum," 10 per cent.; for "Recall" 25 per cent.

The government of the City is carried on under powers granted by the Legislative Assembly of the North West Territories, and amendments thereto from said body, and later from the Provincial Legislature of Alberta. The Council is composed of a Mayor and 12 Aldermen. Up to the end of the year 1923 the Mayor was elected annually. At the Civic Elections held in December, 1923, the electors carried a plebiscite to provide for the election of Mayor for a term of two years, said provision to become effective January 1st, 1924.

CONTINUITY OF COUNCIL, ETC.

In order that some members of each year's Council may be on intimate terms with the City's business, the Aldermen are now elected from the City at large for a two-year term of office, six Aldermen retiring, in the ordinary course of events, on December 31st of each year. The transition from a one to a two-year term of office was accomplished in December, 1918.

A COMMISSIONER is elected on a vote of the electorate of the City, to hold office for a term of two years. THE PUBLIC AND SEPARATE SCHOOL TRUSTEES are also elected annually for a term of two years from a vote of the entire City, the number of members to be elected each year being determined by vacancies on the respective Boards. The number of members comprising the Public School Board is 7 and the Separate School Board 5.

QUALIFICATION FOR MAYOR, ETC.

The Mayor is the Chief Magistrate of the City. Persons eligible for election as Mayor, Commissioner Alderman, Public or Separate School Trustee must be British subjects, qualified electors of the City, male or female, of the full age of 21 years, and who are not disqualified under the ordinances incorporating the City of Calgary.

ELECTIONS, NOMINATIONS AND VOTING

All elected officials of the City of Calgary are elected by the system of Proportional Representation with the single Transferable Vote," generally known as "The Hare System," which was finally adopted and put into operation by the City in the year 1917.

Nominations up to and including the year 1928 were held annually on the first Monday in December, and the election on the second Wednesday following. Commencing with the year 1930 nominations were held on the first Monday in November and elections on the third Wednesday following. The hours of polling are from 9 a.m. to 8 p.m. and "the persons qualified to vote in the above connection are those persons, male or female, 21 years of age or over, whose names appear on last revised assessment roll; or resident British subjects or tenants, male or female, 21 years of age or over, who have resided continuously in the City for at least 6 months prior to the 1st of June in the year the Voter's List is being prepared and who register during the months of June or July in each year, their names at the City Clerk's office, or who are qualified electors and subscribe to the necessary affidavit at the Special Polling Booth as provided on Election Day. (Two weeks in September are also set apart as a final period for Registration and Revision of the Voters' List). If registered British subjects or registered tenants vote at an election, their names are added to the Voters' List for the year following such election. Qualifications for voting on by-laws same as above, but owners of real property only, whose names appear on the last revised Assessment Roll assessed for real property to the value of \$100.00 or more.

COUNCIL'S DUTIES

The Council as a whole is the legislative body and carries on the legislative work through standing committees in the usual way.

COMMISSIONER'S DUTIES

The Board of Commissioners, consisting of the Mayor and one other Commissioner, is the executive body and as such regulates and supervises expenditures, directs and controls departments, nominates all heads of departments, Comptroller excepted, prepares specifications and estimates, advertises for tenders for work, materials and supplies required, inspects work being carried on or in progress within the City, administers the affairs of the City, except schools.

Calgary's form of municipal government (Commission with Council) has proven in this City of large municipally-owned undertakings, to be a safe and sane method of administering the community's affairs.

The Commissioners cannot legally act on an important question, or incur expenditures over \$500.00

before submitting the facts, policies and recommendations to and receiving the Council's instructions.

The Commission form of government had its inception, insofar as Calgary is concerned, in 1907, the Commission then consisting of the Mayor, City Clerk, and City Engineer, said Board being appointed by the City Council. After a brief trial this Board was found to be unsatisfactory, as no matter what good policies the Board might institute or desire to initiate, at least two of the members were not in a position to uphold their policies against possible opposition.

The afore-described Board was supplanted in 1908 by a Commission consisting of the Mayor (chairman) and two Commissioners, the latter two appointed by the Council. Our citizens deemed it their privilege to say as to whom should administer civic affairs and the Council adopted the policy of holding a plebiscite. the two named submitted for the office of Commissioner and receiving the highest number of votes to be appointed by the Council. This method in 1913 gave way to a straight election of Commissioners.

The electors in 1912, 1917, 1918, 1922 and 1931 declared by a large majority to retain the present form of Municipal Government, and in December, 1921, to be in favor of reducing the Commissioners to two, one of whom is the Mayor. This change became effective on January 1st, 1923.

ASSESSMENT, TAXES, BOARD OF REVISION

General Assessment Rolls are compiled in the fall of each year for use after confirmation by the Board of Revision for taxation purposes, etc., during the following year. The Assessment Roll is completed and notices mailed on October 31st preceding the year in which such roll is to be used.

The Board of Revision consists of three members appointed by by-law of the City Council and sits each year to hear appeals against assessment or non-assessment and to revise and confirm the assessment rolls. Appeals against assessment or non-assessment must be in the hands of the City Assessor at least five days before the first meeting of the Board of Revision which cannot be held until 15 days after the mailing of assessment notices.

On purchasing property you should appear at the Assessor's office and present for his information the agreement for sale or title. If a non-resident, write the Assessor.

REAL PROPERTY (General Tax)

After the assessment roll for real property is finally revised and confirmed, usually in December of each year, and the estimated net expenditure to be raised by the general tax is fixed by Council, the tax (mill rate) is struck as follows:

Estimated expenditure (less utilities and revenue from sources other than the general tax) multiplied by 1,000 divided by real property assessment (including special franchise and excluding business tax assessment equals No. of mills constituting the tax rate). (A mill is \$.001).

Each dollar assessed and taxed on the "Real Property" tax rate must pay the mill rate as above determined except on parcels of 8 acres and over, situated in the outer area, when a tax rate of 20 mills is levied.

The Council by by-law fixes the dates up to which certain penalties on General and Special Taxes shall be imposed. For 1942 it is proposed that taxes paid on or before June 24th shall be free from any penalty.

From June 25th the following penalties shall be imposed:—

June 25th to August 31st	2 per cent.
September 1st to November 1st	3 per cent.
November 2nd to December 31st	4 per cent.
January 1st, 1943 and until paid,	$\frac{1}{2}$ of 1 per cent. monthly on the accumulated amount of taxes and penalty.

Tax notices, giving details of the mill rate, general and special taxes due, arrears, penalties, etc., are then mailed. Taxes are due on the first legal day of the year current with their demand.

"Special Taxes," are invariably "Local Improvement" and "Frontage" taxes, such as for sewers, paving, sidewalks, boulevards, curb and gutter, grading, gravelling, water mains, the cost of which is chiefly borne by the properties fronting or the district benefitted. The Provincial Social Service Tax is levied by the Province of Alberta on land value only:

Advance payments on account of taxes for the year 1942 will be accepted after January 2nd, 1942, and interest at the rate of 4 per cent. per annum up to June 15th, 1942, will be allowed on all such payments made before April 30th.

BUSINESS ASSESSMENT AND TAX

The Business Tax first became operative in 1916 and the provisions governing have been amended as necessary from time to time. All businesses, trades, professions, etc., must be assessed each year for a sum equal to the full annual rental of their business premises, whether land or buildings, or both, provided, however, that if such assessment is not equal to those of surrounding similar places and businesses, the assessment may be raised or lowered to make all assessment affected equitable. Assessment notices are mailed December 31st. After the Business tax roll has been revised and confirmed and the Council has set the rate and discount periods, tax notices demanding payment of the Business tax, giving particulars of the amount

due, discounts, etc., are mailed. A discount of 5 per cent. is allowed if paid before April 2nd. Distress warrants may be issued if taxes are unpaid by April 15th. The tax rate on all business is 8 per cent. of assessed rental value. As licence fees are now based on the cost of supervision by the City, no rebate is given off Business tax on account of any license fee paid to the City.

TAX RECOVERY ACT, (1922)

November 1st—Caveat filed against title to properties in arrears for more than 50 per cent. of original levy of previous year. 50 per cent. of original levy together with penalties and interest to date of payment on full amount outstanding must be paid to avoid caveat.

October 1st in the next year following the filing of caveat.—This caveat may be removed by the payment before October 1st in the next year following filing of caveat, of arrears outstanding at the time caveat is filed.

December 31st in the next year following the filing of caveat.—To remove caveat if amount necessary to do so is not paid by October 1st as stated above, it will be necessary to pay all arrears before December 31st in the next year following the filing of caveat.—City will take provisional title to property, unless all arrears are paid before March 1st in the second year following the filing of the caveat.

April 15th in the second year following the filing of caveat—Property will be included in Tax Sale usually held about the 15th of April in the second year following the filing of caveat unless all arrears are paid before the date of sale.

April 1st in the third year following the filing of caveat.—If property not sold at Tax Sale the owner has until the 1st of April in the year following that in which the Sale was held to redeem the property by the payment of all tax arrears. If this is not done the City may obtain absolute title.

TAX EXEMPTIONS

The Dominion and Provincial Governments, Public and Separate School Boards, Incorporated Colleges (on lands and buildings used for school purposes), Church buildings and Church lands (up to one-half acre; are all exempt from General taxes but are liable for Local Improvement Taxes.

VOTERS' LIST

The fact that you have paid taxes does not qualify you for a vote. See that your name appears in the Voter's List to be seen in the City Clerk's office. This matter should be attended to not later than the last legal day of July in any year. An elector is entitled to vote once only at any election on the same

question and must vote at the booth noted on the Voters' List for each elector. Only qualified electors, whose addresses are given as in Calgary are entered on the Voters' List. A qualified non-resident voter who is in the City on election day and wishes to vote must apply in person at the Assessor's office for a certificate.

MUNICIPALLY OWNED INDUSTRIAL SITES

Calgary offers to manufacturers industrial sites owned by the corporation at the cost price. These are located in various parts of the City and the first were purchased in 1911 to provide for industrial development.

"Manchester" within the southern limits of the City, situated on the Calgary-Lethbridge branch of the C.P.R., is offered manufacturers desirous of locating in Calgary, on the following terms:—

Street cars, sewer, water and electric light and power are extended to and in use in "Manchester". This property is approximately two and one-half miles from the Post Office. Applications for sites should be addressed to the City Clerk.

1. Cost price, \$1,200.00 per acre; one-third cash, the balance in equal instalments divided over a term agreeable to the purchaser, up to six years, with interest at 6 per cent. payable annually.

2. (a) The purchaser or purchasers must agree that all buildings erected on land bought by them shall conform to the requirements of the second-class fire limits of the City.

2. (b) To use the land for 10 years from the date of purchase for manufacturing purposes only, and after 10 years for the same purposes until otherwise allowed by by-law of the City of Calgary.

2. (c). To begin building operations on the land purchased within six months from the date of purchase and to complete the buildings within a reasonable time, and if the purchaser or purchasers fail to carry out this provision the agreement shall be void and the land revert to the City.

2. (d). That he or they shall not assign or sublet without the consent of the Council of the City of Calgary.

2. (e) To pay the City of Calgary its proportionate share of the rental of the main spur or spurs constructed to serve the subdivision.

Two miles east of the City Limits and about five miles from the Post Office lie other industrial sites. This property is served by the Canadian National Railroads.

The City also owns several blocks of land in the sub-division known as Calgary Junction.

Another site within easy reach lies about two miles northeast of the Post Office. The Calgary-Edmonton branch of the C.P.R. runs through this property.

The City has power to exempt from taxation buildings, improvements, machinery and stock being used on said land subject to a by-law providing for such limited assessments and exemption being ratified by the people as in the case of a money by-law.

The above clause does not mean that the industrial concerns are exempt from Local Improvement taxation.

If the aforesaid lands, buildings, stock or improvements cease to be used or occupied for the purposes aforementioned, such land, etc., so ceasing to be used or occupied shall be liable to taxation in the usual manner.

Further information in respect to the above will be gladly furnished by the City Clerk.

CITY HALL

Calgary's City Hall is situated at the corner of Seventh Avenue and Second Street East. The site was obtained in the year 1885.

Construction work on the present building was begun in the year 1907.

The building is a solid sandstone structure, with reinforced concrete floors, fireproof construction, and cost in the neighborhood of \$300,000.00. The frontage is 112 feet on Second Street East; depth 128 feet on Seventh Avenue, and a floor space of 33,280 square feet. The height of the tower from the sidewalk is 100 feet.

Most of the materials for the building were obtained in the neighborhood of the municipality. It was formally opened for business in the month of January of the year 1911. The City Hall had not sufficient space to accommodate all the City's executive offices, and the interior has been remodelled in part to try and solve the difficulty.

POLICE HEADQUARTERS

As a result of the rapid growth and development of Calgary, and the corresponding increased volume of civic business it has been necessary to erect in close proximity to the City Hall, a modern fireproof construction, consisting of reinforced concrete framework and floors, and brick filling with stone trimmings, to be used as a Police Headquarters, and for other civic departments. This building was completed on August 31st, 1914.

UTILITIES BUILDING

Built during the summer of 1939 and opened for business on Saturday, December 2nd 1939, the Utilities Building of the City of Calgary was constructed for the purpose of giving more space for expanding departments of the civic service as well as to provide the citizens with a more central location in which to pay their electric light and water accounts.

The building is of modern reinforced concrete construction, faced with Winnipeg stone and is the first building to be equipped with an air conditioning and humiditying plant in the City of Calgary. The location of the building is 115 Sixth Avenue West, immediately adjoining the Telephone Building of the Province of Alberta.

CANADIAN GOVERNMENT ELEVATOR Calgary, Alberta

Office—627 Public Building.

Superintendent—W. J. McMullen.

The Canadian Government Elevator at Calgary is a reinforced concrete terminal elevator of 2,500,000 bushel capacity. This interior terminal elevator, together with similar elevators of 5,000,000 bushels capacity each at Saskatoon and Moose Jaw, Sask., were constructed by the Board of Grain Commissioners for Canada to operate in conjunction with the Board's Lake Terminal Elevator at Port Arthur, Ont., and with the Board's Ocean Terminals at Vancouver, B.C. The purpose of the Calgary elevator is to provide storage and cleaning facilities for grain grown in the Province of Alberta, and to act as a reservoir for shipments to the East via the Great Lakes or more especially for shipments westward to Vancouver, where it may enter the trade routes of the Pacific, or of the Atlantic via the Panama Canal.

The Calgary elevator is a great boon to the farmer during a period of congestion in transportation, and, possessing, as it does, the most up-to-date facilities for treating damaged grain, will prevent grain going out of condition on account of excess moisture while in transit.

The plant consists of the following units, all of reinforced concrete construction and absolutely fireproof:

(1) The work house is known as a 13-leg house with storage capacity of 500,000 bushels, capable of handling 90 cars in and 90 cars out per day.

(2) A storage house of 56 triangular bins, 23 feet 2 inches in diameter, and 92 feet high, with a capacity including the interspace bins of 2,000,000 bushels.

(3) Two drying plants fitted with the most modern type of Morris drier with a combined drying capacity of 20,000 bushels per day of 24 hours, the heating factor in these plants is two 100 h.p. marine type boilers and one 200 h.p. return tubular boiler located in a special building.

The elevator is electrically driven, power being supplied by the City of Calgary at 12,000 volts and reduced in the elevator sub-station to 550 volts for power purposes and 110 volts for lighting. A separate motor drives each machine, 53 motors being required to run the plant.

A Cyclone Dust Collector system is employed to remove the dust and floor sweepings, and a compressed air system for blowing dust from motors is also a part of the elevator equipment.

The elevator is especially well equipped for cleaning grain its cleaning equipment consisting of 9 receiving separators, each with a capacity of 1,000 bushels per hour, or a small carload; one flax separator, two wheat and oat separators, and two screenings separators. These machines provide for all ordinary separations as well as for cleaning seed grain.

A screening grinder of large capacity is installed for grinding elevator screenings for stock feed purposes. All grain received and loaded is weighed in Hopper scales located in the warehouse cupola; six in number, are installed, each with a capacity of 2,000 bushels, or 120,000 pounds.

The elevator is connected by a direct spur track to the C.P.R. and Canadian National Railways by transfer connections. Ample trackage is provided on the Government property for unloading and sorting cars. The Government own trackage which is approximately three miles, and has accommodations for 350 cars.

The total cost of the Calgary elevator was approximately One Million Dollars.

CALGARY POWER COMPANY, LIMITED

President, G. A. Gaherty; Manager, H. B. Sherman; Production Superintendent, T. D. Stanley; Transmission and Distributing Engineer, H. B. Le-Bourveau; Waterworks and Equipment Engineer, H. Randle; Commercial Manager, H. Forbes-Roberts; Chief Accountant, G. L. Gilker.

Offices—Insurance Exchange Building.

Calgary Power Company, Limited, was organized in 1909 and at present the installed capacity of its hydro-electric plants comprises more than 99 per cent. of the developed water power in the province. The City of Calgary's 14,000 h.p. steam plant is leased to the Company for the purpose and period of the contract with the City and is maintained as a reserve by the Company.

The installed capacity of the Company's hydro-electric developments on the Bow River, west of Calgary, totals 68,000 h.p.

The Company supplies the whole of the electrical requirements for the City of Calgary and contracts are made with five of the seven cities of Alberta for the supply of all or part of their electrical load. Inter-change agreements are in effect with the East Kootenay Power Company Ltd., the City of Edmonton, and the City of Lethbridge.

Hydro Plants

The installed capacity of the Company's hydro-electric developments in the Bow River basin, west of Calgary, totals 91,000 h.p.

No. 1.—Horseshoe Falls Plant on the Bow River, 55 miles west of Calgary. Capacity 20,000 h.p., head 75 feet. Brought into operation May, 1911.

No. 2.—Kananaskis Falls Plant. Two miles west of Horseshoe Falls Plant. Capacity 12,000 h.p., head 74 feet. Brought into operation in 1914.

No. 3—Ghost Water Power Project. Thirty-two miles west of Calgary. Brought into operation in October, 1929. Installed capacity 36,000 h.p., with a 1,450 station service unit. Head 110 feet. The units in this plant are 18,000 h.p. each and provision was made in the intake works for a third 18,000 h.p. unit to be installed when required.

No. 4—Cascade Plant. Located near Anthracite, five miles east of Banff. Brought into operation in 1942 with an installed capacity of 23,000 h.p. in one unit. Head 340 feet. The water comes from Lake Minnewanka by way of a control dam and pumping station with 2,200 h.p. in motors, 2½ miles canal, 2,000 feet of 9-ft. diameter wood stave pipe and 450 feet of 8-ft. diameter steel penstock. The surge tank 171 feet high is located at the junction of the wood stave pipe with the penstock.

The dams at Horseshoe Falls and Kananaskis Falls plants are of the solid concrete gravity type.

The Ghost dam is located immediately below the confluence of the Bow and Ghost rivers and is 4,975 feet in length with a maximum height of 110 feet. There is 1,700 feet of concrete gravity type dam and spillway and 3,275 feet of earth fill dam. The area of the storage reservoir is 2,866 acres and 74,000 acre feet of water is stored.

Storage Reservoirs

In addition to the Ghost storage the Company has reservoirs at Lake Minnewanka and the Upper Kananaski Lake. The first dam at Lake Minnewanka was constructed in 1912 raising the water level 16 feet and making 44,000 acre feet of storage available. In 1941 an earth fill dam 1,890 feet long with a maximum head of 110 feet was constructed to raise the level

of the lake 65 feet and provide 200,000 acre feet of storage to be used through the new Cascade plant and all the plants down the Bow River.

In 1933 a preliminary dam was constructed at the Upper Kananaskis Lake which supplied 40,000 acre feet of storage. The year 1942 will see the final dam constructed here with a capacity of 96,000 acre feet of water to be used during the low water period through the present plants on the Bow River.

Transmission and Distribution

Total retail consumers in the interconnected system—76,721.

Circuit miles of transmission lines:—

175 miles of 132,000 volt circuits.
74 miles of 110,000 volt circuits.
330 miles of 66,000 volt circuits.
109 miles of 33,000 volt circuits.
482 miles of 22,000 volt circuits.
1115 miles of 13,200 volt circuits.

2285 miles total.

Distribution systems:—

367 miles of pole lines, primaries 2300 v., 60 cycle, 3 phase; secondaries 110 v., and 220 v.

The distribution lines of the Company extend from the United States boundary to a point fifty miles north of Edmonton and in the northern part of the province extend to Saskatchewan, serving 165 cities, towns, villages and hamlets in Alberta.

The Company's rates are conducive to the growth of load and its system has been designed with a view to future expansion.

NATURAL GAS

Office—215 Sixth Avenue West, Calgary.

Phone — R 2091.

Natural gas was first discovered in the Bow Island field in commercial quantities in 1908.

The Canadian Western Natural Gas, Light, Heat and Power Company, Limited, was formed for the purpose of supplying Calgary, Lethbridge and the intervening towns with natural gas. On April 11th, 1912, work was commenced on a 16-inch steel trunk line between Bow Island and Calgary, a distance of approximately 171 miles, and was completed on July 17th, 1912; thus establishing what is believed to be a record in the Natural Gas history. The cost of putting this line into service was over four million dollars.

On August 3rd, 1912, nature's ideal fuel from the Bow Island field was delivered to the householders of Calgary. For some 10 years the Bow Island field was the sole source of supply.

Later the Chin Coulee and Foremost fields were developed to augment this supply. In 1922 the company's system was first tied in to the Turner Valley field. At the present time total requirements of the company's entire system are supplied from the Turner Valley field, all gas being purchased from the Royalite Oil Company and transported through three transmission lines.

The Bow Island and Foremost fields are now held as a reserve supply, the value of the former having been materially increased by pumping into it some 10 billion cubic feet of otherwise waste gas from Turner Valley.

The Company now serves over 22,000 domestic consumers and over 3,000 commercial and industrial plants, and sells annually in excess of 8 billion cubic feet.

RATE No. 1—Old General Rate.

Minimum charge \$1.00 per month.

First	150 M.C.F.	.37	4	.33
Next	350 M.C.F.	.34	4	.30
Next	500 M.C.F.	.28	3	.25
Next	1000 M.C.F.	.22	2	.20
Next	3000 M.C.F.	.19	2	.17
Excess	M.C.F.	.17	2	.15

Conditions:

1. When accounts are not paid on or before the due date the Gross Rate shall apply.

2. Customers making application for service after December 31st, 1939, or Customers who after that date may be cut-off for non-payment or for other violations of the Company's "RULES and REGULATIONS" as approved by the Board of Public Utility Commissioners of Alberta, have the option of Rates No. 2, No. 3, No. 4 or No. 5, where applicable.

RATE No. 2—Domestic Combination Rate

First 4 M.C.F. \$1.50 per month. All additional M.C.F. 27 cent's per M.C.F. per month. Minimum \$1.50 per month.

Available to Domestic Customers on Annual Contract who, in addition to other general uses of gas, regularly use and depend for space heating service solely upon a gas-fired central heating plant or other gas fired space heating equipment and take all such gas service through one meter.

Conditions:

1. When accounts are not paid on or before the due date, the charge per M.C.F. other than the first four M.C.F., shall be increased by 4c. (four cents) per M.C.F. and the Gross Rate so arrived at shall apply.

2. To Customers who have signed a new "Application," this rate shall be effective for all bills payable on or after the first day of January, 1940.

3. To Customers who sign the new "Application"

before March 1st, 1940, the Rate shall, if necessary, be retroactive to the date specified in Paragraph 2 above.

4. Having signed an "Application" for this Rate, the Customer may not again transfer to the Old General Rate.

RATE No. 3—Commercial and Industrial Combination Rate

First 4 M.C.F., \$1.50 per month. All additional M.C.F. 28 cents per M.C.F. per month. Minimum \$1.50 per month.

Available on Annual Contract to Commercial and Industrial Customers using less than 4,230 M.C.F. per year, and who, in addition to other general uses of gas, regularly use and depend for space heating service solely upon a gas-fired central heating plant or other gas-fired space heating equipment and who take all such gas service through one meter.

Paragraphs 1, 2, 3, and 4 same as Rate No. 2.

5. When a Customer has been billed under this Rate and at the end of the year it is found that he should have been billed under sub-section "A" "Commercial and Industrial Rates," No. 4, his account shall be adjusted and the necessary refund made by the Company.

RATE No.4—Commercial and Industrial Site.

(A) Customers whose Annual consumption is greater than 4,230 M.C.F. per year and less than 10,000 M.C.F. per year.

Fixed Charge — Eighteen (\$18.00) Dollars per month; plus Consumption Charge—Twenty-three (23c) Cents per M.C.F. per Month.

(B) Customers whose Annual consumption is greater than 10,000 M.C.F. per year and less than 24,000 M.C.F. per year.

Fixed Charge—Sixty (\$60.00) Dollars per month; plus Consumption Charge—Eighteen (18c) Cents per M.C.F. per month.

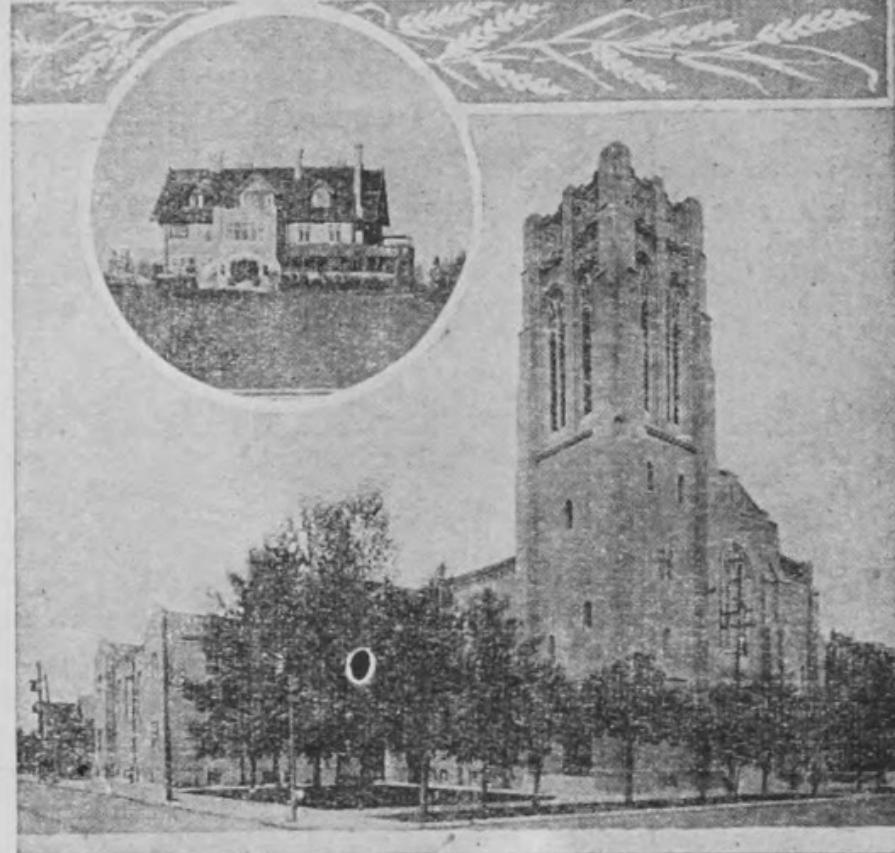

(C) Customers whose Annual Consumption is greater than 24,000 M.C.F. per year.

Fixed Charge—One Hundred and Twenty (\$120) Dollars per month; plus Consumption Charge—Fifteen (15c) Cents per M.C.F. per month.

Conditions:

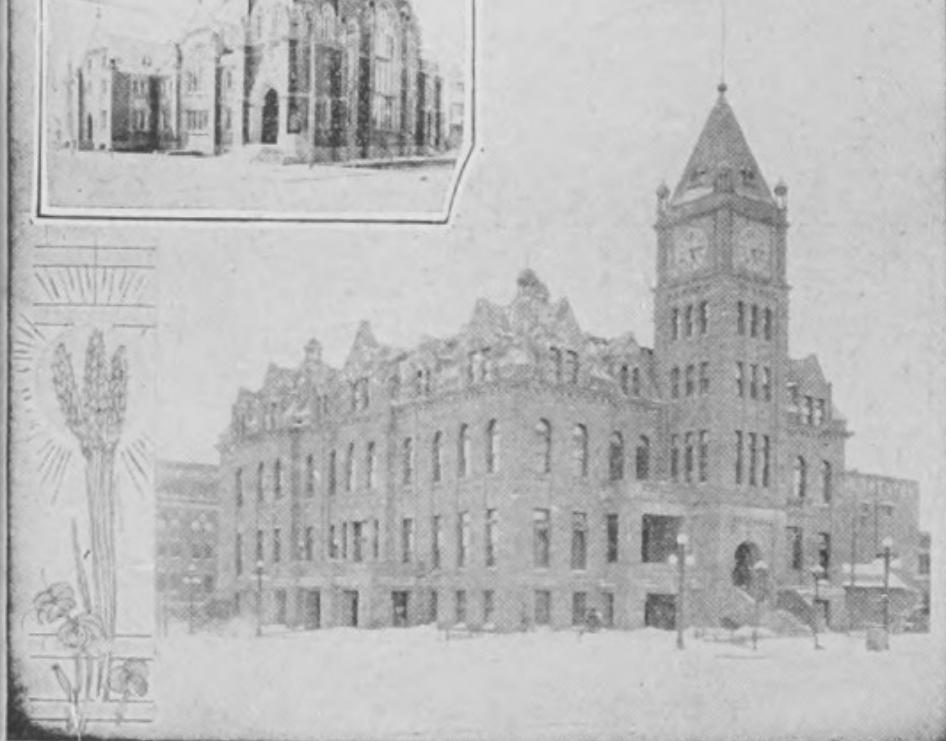

1. This Schedule is available only on annual contract, which shall continue from year to year thereafter, until either party shall give to the other party at least thirty (30) days prior to the expiration of any such year, a written notice of desire to terminate same, whereupon at the expiration of such year it shall cease and determine.

2. When accounts are not paid on or before the due date the charge per M.C. F. shall be increased as follows: Rate "A" Four (4) Cents, Rate "B" Three

McDougall School
Residence

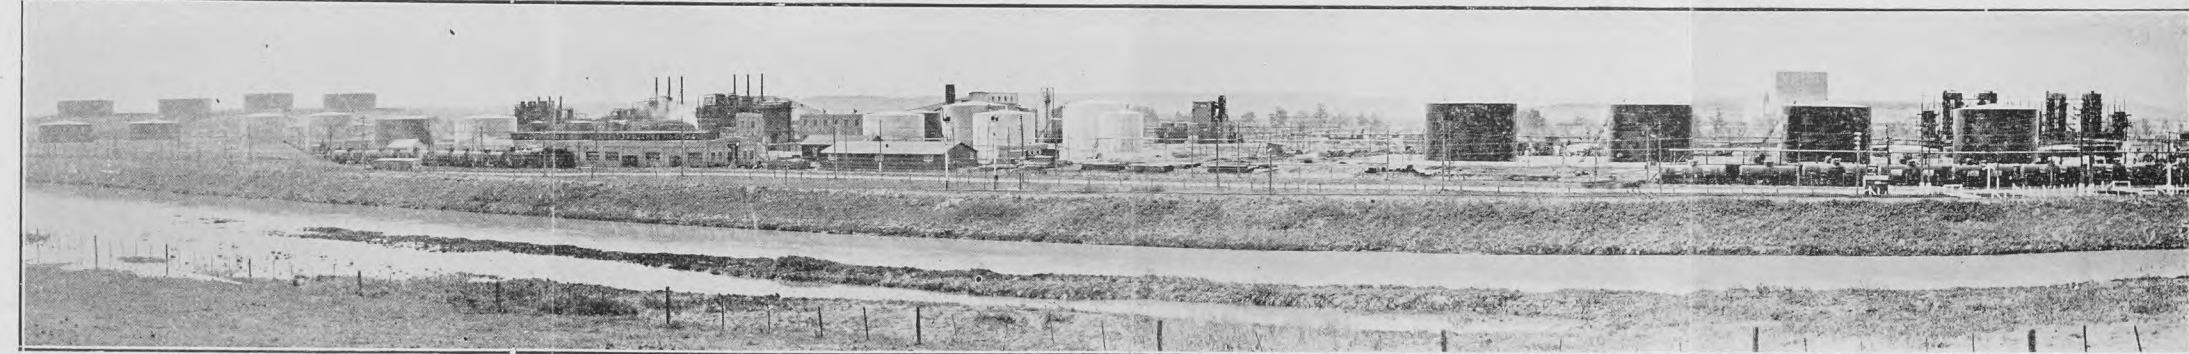

Knox United Church

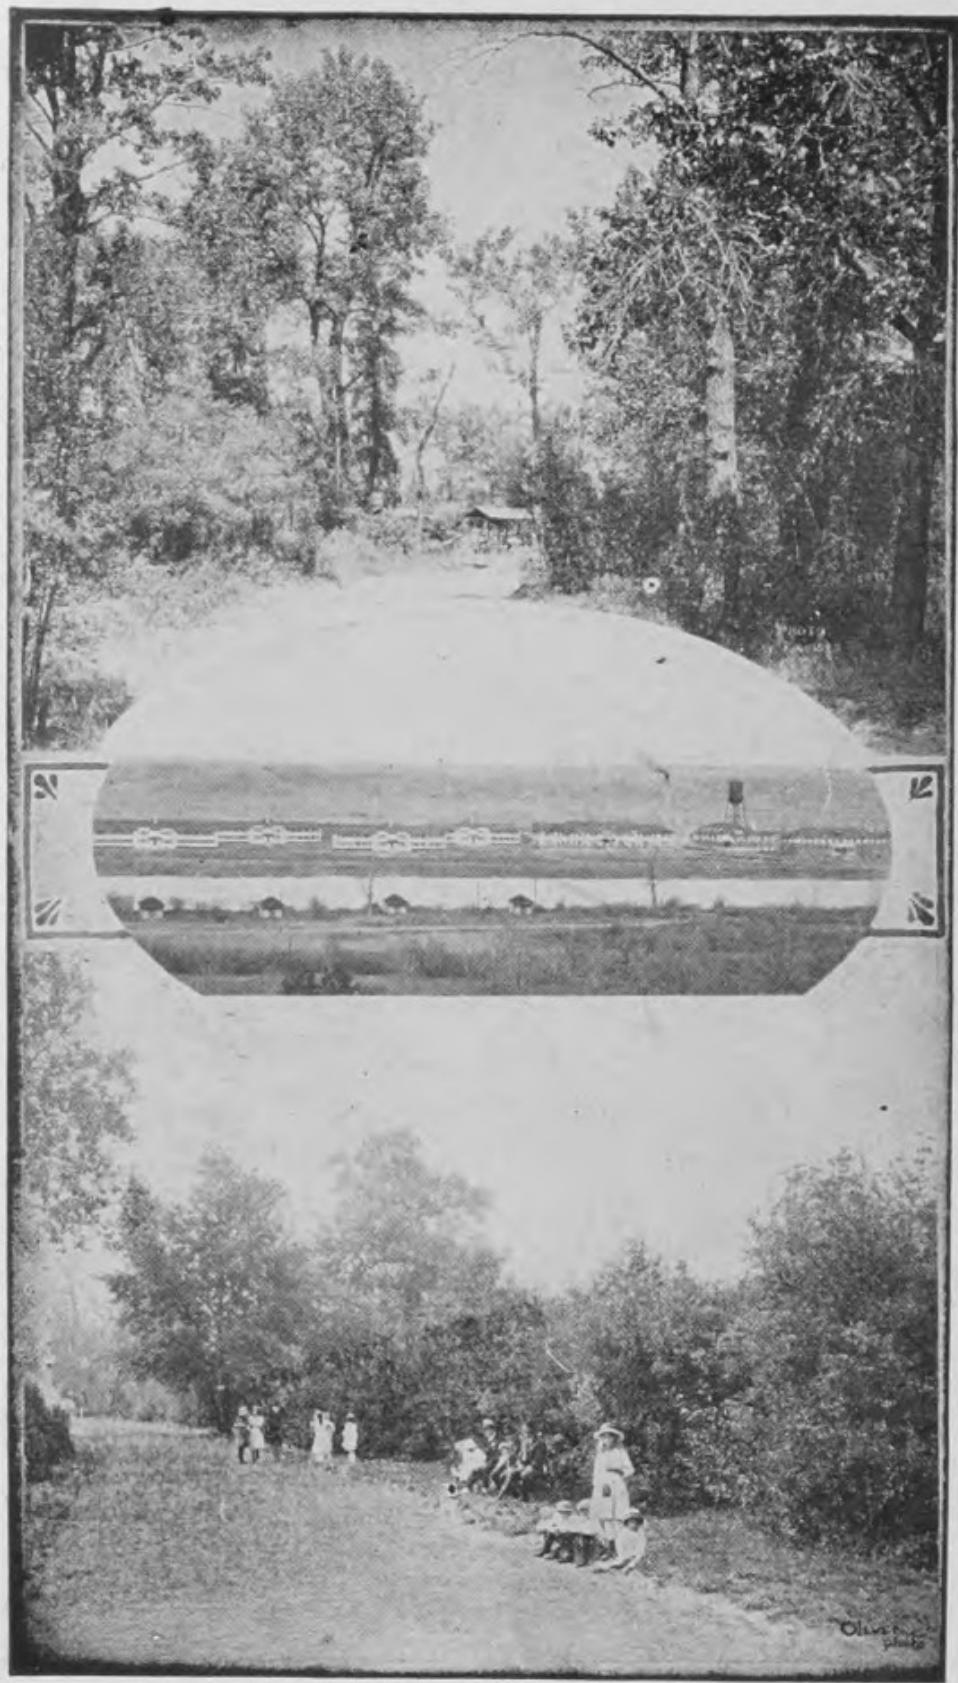

Public Library
First Baptist Church
City Hall

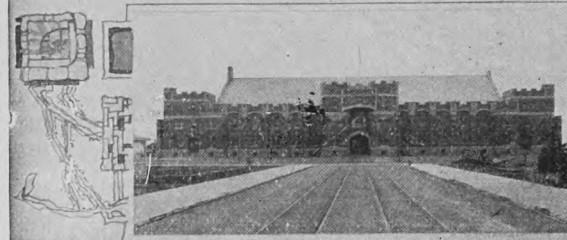

Calgary (Business Area from the North Hill)

Imperial Oil Refinery

St. Patrick's Island
Keith Sanatorium
St. George's Island

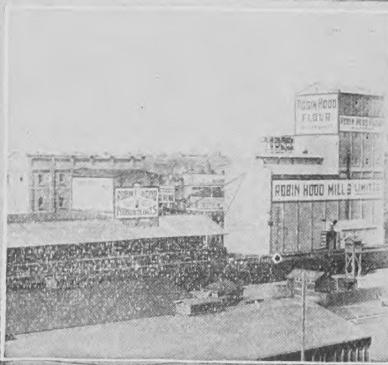

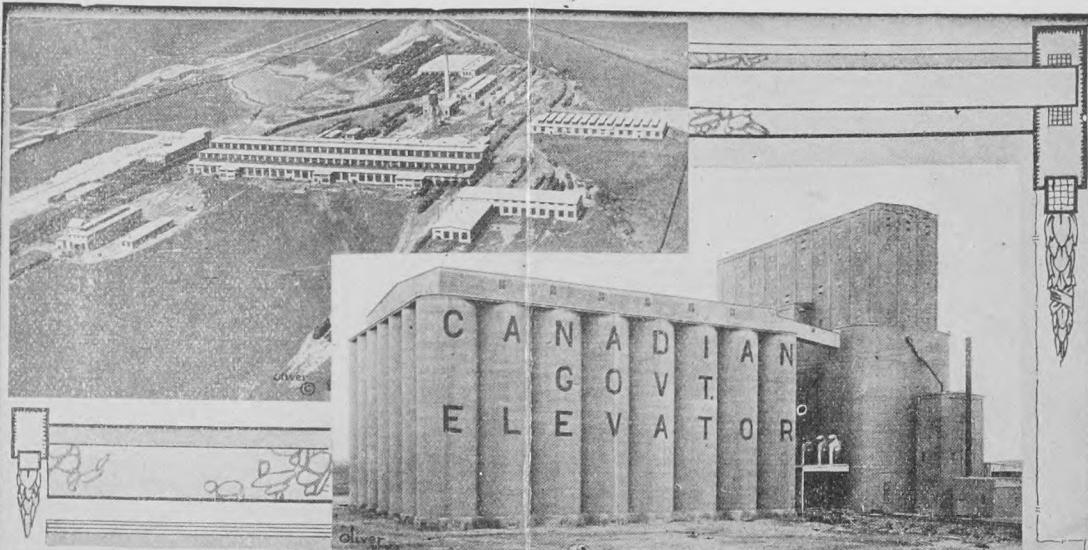

Aerial View of Business District
The Armouries

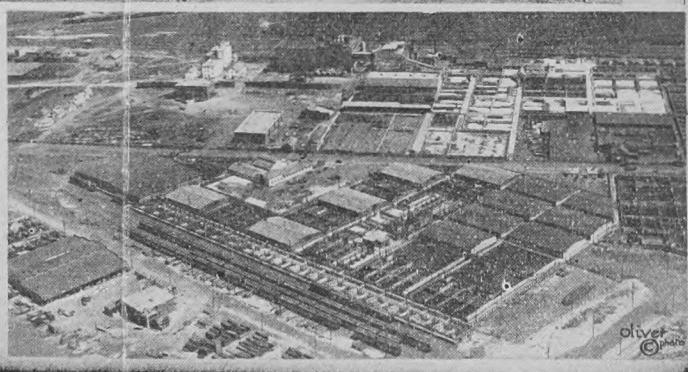

Canada Life Building
Recreations, Riley Park

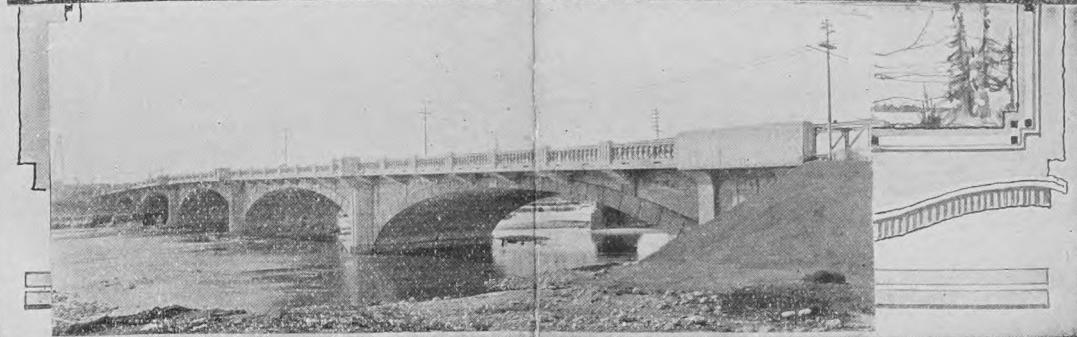

C.P.R. "Ogden" Shops
Milling Industry

Canadian Government Elevator
Alberta Stockyards, Calgary

"Mission" Bridge
"Centre Street" Bridge (High and Low Level)
"Hillhurst" Bridge

(3) Cents, Rate "C," Two (2) Cents. The gross rate so arrived at shall then apply.

3. When a Customer has been billed under one sub-section, (A, B or C), of this Rate and at the end of that year it is found that he should have been billed another sub-section his account shall be adjusted and the necessary refund made by the Company.

RATE No. 5—New General Rate

Available to all Customers on Annual Contract.

Fixed Charge—One Dollar (\$1.00) per month; plus Twenty-eight (28c) Cents per M.C.F. per month.

Conditions:

Paragraphs 1, 2 and 3 same as Rate No. 2.

4. Having signed an "Application" for this Rate, the Customer may not again transfer to the Old General Rate, but may on thirty (30) days notice prior to the expiration of the Annual Contract transfer to any of the other Rates.

HISTORICAL

Calgary was so named on Feb. 29th, 1876, by Col. Macleod, then commanding the Mounted Police detachment at this point. He named it after his old home, Calgary, a small estate on the Isle of Mull, Scotland. "Calgary" is said to mean "clear running water."

1875—The first detachment of the Mounted Police arrived under command of Captain Brisbois; who built Fort Brisbois near the confluence of the Bow and Elbow Rivers. This was the first white settlement at this point, which continued to be known by the outside settlers as "The Elbow." The I.G. Baker Co., of Montreal, and the Hudson's Bay Co. shortly afterwards opened the first trading post.

1876—Col. Macleod took command of the post and renamed it Fort Calgary. The word came later to be spelled with one "r", Calgary, which is the correct Scottish spelling.

1881—Calgary consisted of the Hudson's Bay Store, I. G. Baker's store, Mounted Police Barracks and the house of the commanding officer.

1883—First train from Winnipeg reached Calgary, 28th August, Dominion Land Office opened.

1884—Incorporated as "Town of Calgary" November 17th, 1884. Area approximately 1,600 acres. Population 500. Section 14, 15 and 16, South of the Bow River, within the Town Limits. First Council meeting, December 4th, 1884, in Royton Hall; Mayor, George Murdock, Councillors, S. J. Clarke, N. J. Lindsay, J. H. Milward, S. J. Hogg. Railway time adopted. Design of Corporation Seal completed and adopted. Government petitioned by town for power to issue licenses, proceeds to be property of the municipality.

1885—Calgary asks for arms for the protection of the City. Site for a town hall, market place and fire

hall donated. Combined town hall, police court and police cells erected; cost, \$1,694.00. Fire brigade, hook and ladder company organized. Seal received and adopted. All by-laws repealed and passed under seal. Government asked for 50 acres of land for cemetery. Sir Hector Langevin petitioned re bridge across Bow River (hence the name "Langevin Bridge"). Public Market established. Wells sunk to provide water for fire protection. Night watchmen appointed. Cemetery selected—located on Section 18, Township 24, Range 1, West of the 5th. Holloway chemical engine purchased. Land for park granted to the Town.

1886—First train from Montreal to the Pacific Coast passed through Calgary with Sir John and Lady Macdonald as passengers.

Fire limits arranged. Steps taken for stockyards site in Section 11. Fire brigade organized.

1887—Fire hall built. Council offers to lease land to the C.P.R. for 21 years for stockyards. Water tanks, 30,000 gallons capacity constructed. Propose to pay Mr. Prince \$1,500.00 for purpose of building bridge across Bow River at west end of town.

1888—Government bridge across Bow River at Dewdney Street completed. Bids asked for construction of waterworks and supplying town with water and fire hydrants.

1889—Visit of Lieutenant-Governor. Government memorialized re. islands in Bow River for parks purposes.

1890—Visit of H.R.H. Duke of Connaught. Official celebration on the occasion of first sod turned on Calgary and Edmonton Railway. Three islands in the Bow River, opposite the Barracks, acquired for parks purposes.

1891—Calgary and Edmonton branch of the C.P.R. started operation.

1892—\$3,000.00 invested by Town in boring for gas. Cable ferry across Bow River instituted.

1893—Charter for City of Calgary under preparation. Incorporated as the "City of Calgary" September 16th, 1893. Macleod branch of C.P.R. started operation.

1894—Consul appointed for Norway and Sweden.

1897—Klondyke rush started. Bridge over Elbow erected—cost \$1,248.00.

1898—C.P.R. located repair shops, etc., at Calgary. City gave a bonus of \$25,000.00. Council goes on record as favouring municipally-owned waterworks. Pound established. His Excellency, the Governor-General, The Earl of Minto, G.C.M.G., visits Calgary.

1899—General Hospital incorporated. Steps taken to purchase waterworks from Calgary Gas & W. W. Co.

1900—Calgary Gas & W. W. Co.'s water system purchased.

1901—Limits extended to include Victoria Park. City assumes control of Victoria Park. Public receptions

to Albertans returning from Boer War. Visit of Lieutenant-Governor and Legislative Assembly. City Clerk instructed to secure seal for City. Visit of Their Excellencies The Duke and Duchess of Cornwall and York.

1902—Considered advisable to retain sufficient land for future stockyards.

1903—City limits extended to include a small portion in the N.E. quarter of Section 11-24-1, West of the 5th Meridian.

1904—Decided to number streets and avenues and dispose of names. C.P. R. irrigation works started east of Calgary. Foundation stone of Church of the Redeemer laid.

1905—Engineer instructed to prepare plans of an Electric Plant. Natural gas franchise granted. Bridge over Elbow at Second Street East completed—cost \$7,678.79. By-law 619, establishing Electric Light Plant, effective July 31st, passed.

1906—Construction of Electric Railway considered. Committee appointed to consider establishment of Public Library. City limits extended to include a small portion of N.W. quarter of Section 11-24-1, West of the 5th Meridian.

1907—City limits extended to include Sections, part North half of 4, and part N.W. quarter 3, North half 5, all 8-9-10-11. Sections 12 and 13, South and West of Bow River, 15 and 16 North of Bow River, all 17, part in Section 18 and South half of Sections 20, 21, 22 and 23. Primitive commission form of government introduced. Subways to be built at Elbow River, First Street East, and subway at Second Street East to be altered.

City limits extended. Decided to build Municipal Street Railway. Decided to petition Legislature for power to elect Board of control or commissioners. Gravity water system built. Visit of the Band of the 15th Light Horse of Calgary to Dublin, Ireland.

1908—Municipal Railway started construction. St. George's Island bridge built. Mr. Andrew Carnegie offers \$50,000.00 to establish public library.

1909—Commission form of civic government introduced. Calgary Public Library Board start the erection of the first public library in Alberta. Bow River tunneled for water mains. Calgary Municipal Railway service commenced operation July 5th 1909.

1910—City limits extended to include Tp. 24, R. 1, W. 5. Hydro-electric power for Calgary. Industrial sites purchased. Plans for entrance of G.T.P. submitted for approval. Riley Park donated to City. Sir Wilfrid Laurier visits Calgary. C.N.R. submits tentative plans for entrance into the City.

1911—G.T.P. Ry. and C.N. Ry. submit revised plans for entrance into Calgary. C.P.R. Co. and the Hudson's Bay Co. start erection of large buildings. Present City Hall opened for business. New fire headquarters built. City limits extended to include North

- half of Section 34 and all Sections 25, and 36, Twp. 23, R. 1, West of the 5th Meridian, and Sections 33 and 28, Twp. 23, R. 29, West of the 4th Meridian.
- 1912—Visit of H.R.H. the Duke and Duchess of Connaught and Princess Patricia. C.P.R. car shops—greatest in Western Canada—located in Calgary. Municipal paving plant installed. Natural gas piped to the city from Bow Island. C.N.R. submit plans for station. Library opened to public.
- 1913—Wards abolished insofar as elections for Aldermen concerned. Two-year term for Aldermen instituted. Agreement authorized with Hospital Board bringing the control of General Hospitals in Calgary under the jurisdiction of the "Calgary Hospitals' Board." G.T.P. steel laid in city limits, March 27th. C.N.R. steel laid in city limits, April 21st.
- "Made in Calgary Show" first held. Union stockyards proposed. Oil discovered in Calgary districts October 7th, 1913, at the depth of 1,562 feet. \$350,000.00 authorized for purchase of site and erection of abattoirs, etc. (For further particulars see Statistics). Construction commenced in June of Police Building.
- 1914—G.T.P. first passenger train arrived. February 26th.
- 1914—Great War, August 4th, 1914.
- 1914—Visit of Duke and Duchess of Connaught and Princess Patricia curtailed by reason of war outbreak. Police building completed August 31st.
- Dingman "Discovery Well," producing 25 barrels of oil per day; bi-weekly shipments of high-grade oil, nearly pure gasoline. Monument to South African Veterans unveiled.
- Concrete and Steel Bridge By-laws passed. Purchase of Alberta Stockyards rejected by ratepayers, Feb. 23rd. First regular passenger train arrives over C.N.R., May. 1,000 feet of oil in Dingman well. C.P.R. Hotel "Palliser" opened.
- All church property exempted from taxation.
- Herald Building completed.
- International Irrigation Congress held at Calgary. Delegates attend from all quarters of the globe.
- Calgary mobilizes 4,500 for Empire's defence.
- 1915—Governor-General and later General Lessard inspect large number of troops recruited in Calgary district. Mission bridge, municipally built, opened in August. Prohibition Liquor Act carries in Calgary and Alberta by a large majority in July. \$375,000.00 reinforced concrete bridge, Centre Street, started construction by City Engineer; (grades commenced, piers, abutments, and north arch and retaining wall nearly completed). Charter amendments obtained provided for Business Tax on Rental Basis to be effective in 1916. Voting franchise extended to include all British Subjects 21 years of age or over, resident in the City six months prior to June 1st of each year. Daylight

saving scheme approved. Medical inspection of schools inaugurated. Gas Company sued by City to ascertain the extent of their franchise; City wins first trial. Municipal Golf Course opened. Australian Cadets visit Calgary.

1916—Reinforced concrete bridge spanning the Bow River at Centre Street, and costing \$375,000.00 completed.

March—Armouries Building to be located in Mewata Park. Mewata, Cree word, meaning "To Be Happy."

Sale of spirituous and fermented liquors containing more than 2½ per cent. alcohol forbidden from 21st July, 1916.

Sir Robert Borden, Canadian Premier, visits Calgary, December 18th, in connection with prosecution of the war.

1917—First street car passed over the new Centre Street Bridge, January 7th.

Armouries Building construction commenced.

December 1st—Duke of Devonshire visits Calgary.

December—Civic elections first conducted under proportional representation.

1918—November 11th, Armistice Day, Armouries Building completed.

Board of Assessment Commissioners supplants Court of Revision.

Soldiers' homes exempted from taxation for 1918.

1919—April 29th: Aeroplane first used in Calgary for commercial purposes; aerodrome built at Bowness Park. Prince of Wales entertained in City.

Duke of Devonshire (Governor-General) visits Calgary.

Hospitals come under direct control of civic authorities.

By-laws for Louise Bridge, Sewer Disposal Plant, Waterworks Extensions and Hospital Additions passed. Calgary Citizens contribute \$5,200,000.00 for Victory Loan.

1920—Hillhurst Bridge construction commenced.

Airplane Cross-Canada flight touched Calgary.

Gas plebiscite, re. increased rates, defeated.

Tuberculin Testing of Dairy Cattle commenced.

Children's Aid Department comes under control of City Council and Commissioners.

Importation of Liquor prohibited by referendum.

1921—Group Life Insurance for civic employees instituted.

Institute of Technology and Art Building commenced.

July 18th—Calgary returns two Labor, two Independent and one Liberal members to the Provincial Parliament.

December 6th—Calgary returns one Labor and one Progressive to Dominion Parliament.

Gas rates increased to 53c gross by Board of Public Utilities.

April—Duke of Devonshire (Governor-General) and Duchess visit City.

Reduction in number of Commissioners authorized by plebiscite.

Grasshopper plague.

Service Tax levied: Utilities taxed 4 per cent.

Hillhurst reinforced concrete bridge opened.

Tuberculin Test applied to milk cows and cattle.

Turner Valley gas piped for Calgary supply.

1922—Service Tax defeated.

Imperial Oil Company commences construction of \$2,500,000.00 oil refinery.

Lord Byng (Governor-General) and Lady Byng visit City.

Cemetery addition acquired.

Institute of Technology Building completed and opened unofficially.

Normal School moved into Institute of Technology building.

Imperial Oil Ltd. Royalite No. 4 well produces 500 barrels of oil per day.

1923—January 1st: Board of Commissioners reduced to Mayor and one other Commissioner.

January—Institute of Technology officially opened.

Plebiscite approved making term of Mayor two years commencing January 1st, 1924.

New cemetery opened in Burnsland.

Alberta produced largest amount of wheat in its history, approximately 157,000,000 bushels.

Wild West Stampede held in June.

Alberta Wheat Pool commenced operations on October 29th, with head offices in Calgary.

Liquor plebiscite carried November 5th, permitting the government sale of all liquors.

1924—Sale of liquors under Provincial Government control became effective May 10th at 12 o'clock noon.

- 1941—April 21-22. His Excellency the Earl of Athlone, Governor-General of Canada, and Her Royal Highness Princess Alice, Countess of Athlone, visit Calgary on their first Dominion tour since taking office.

Description of Calgary's Coat of Arms

The upper third of the shield shows the Rockies—our pride and glory. The lower two-thirds bears the Red Cross of St. George, mounted by the Maple Leaf (Canadian Emblem) which again is inset by a Buffalo Bull, the former master of our great country. The supporters, a Horse and a Steer, represent our wealth.

The Crest shows the Royal Crown (a sign of loyal-

ty), and a Sunburst. Below are the Rose, the Thistle and the Shamrock, declaring our ancestry. Calgary was founded in 1882, and in 1894 she received her City Charter. Our motto is "ONWARD," and the Union Jack and Canadian Ensign speak of the Imperial Empire.

The Seal of the City of Calgary is similar to the above design.

Description of the Coat of Arms of the Province of Alberta

Azure in front of a Range of Snow Mountains proper, a Range of Hills Vert., in base a Wheat Field surmounted by a Prairie, both also proper, on a Chief Argent a St. George's Cross

MAYORS OF CALGARY

City Patients

General Ward	\$2.00
Semi-Private Ward	\$3.00
Private Ward	\$5.50 to \$6.00

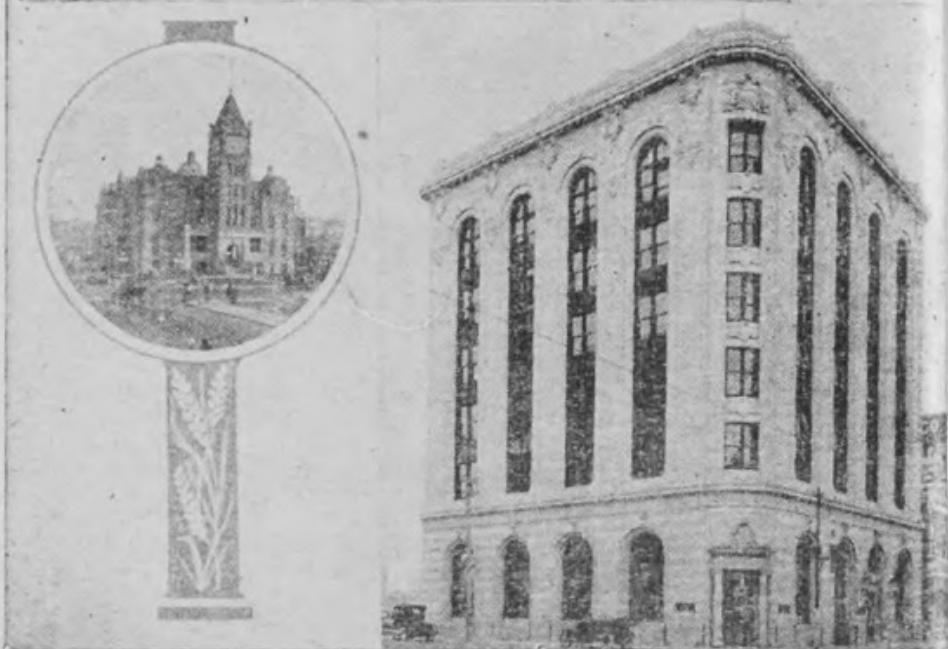

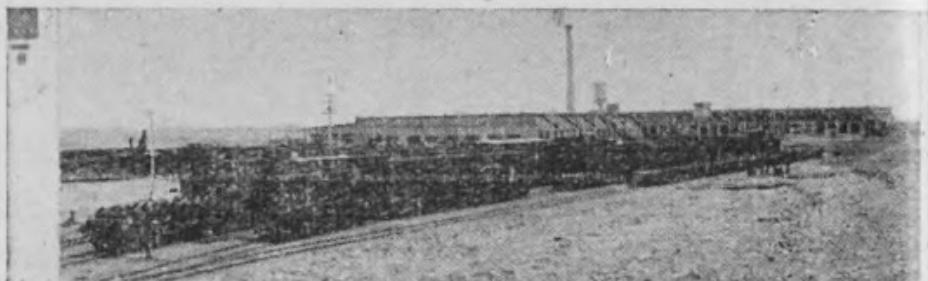

Country Patients

General Ward	\$3.00
Semi-Private Ward	\$4.00
Private Ward	\$5.50 to \$6.00

Maternity Case Room—

City Cases	\$3.00
Country Cases	\$3.00

A "city" patient is one who has resided within the limits of the City of Calgary for a period of at least twelve consecutive months out of the twenty-four months immediately preceding admission to hospital, without receiving relief; or having failed to reside for twelve consecutive months as aforesaid, has resided, or sojourned, within the limits of the City of Calgary for at least three consecutive months out of the 24 months immediately preceding admission to hospital, without receiving relief:

City Hall

C.P.R. Shops at Ogden
Hudson's Bay Company Store

Canada Life Building

Providing always that any such patient has not, at date of admission to hospital, a permanent home elsewhere than in the Province of Alberta.

Persons, under twenty-one years of age, who are domiciled in Calgary whilst temporarily working or attending schools, etc., and whose parents maintain their home outside the City of Calgary are not city patients.

Operating Rooms—

City patients	Minor operations, \$ 3.00
	Major operations 5.00
Country patients	Minor operations, 5.00
	Major operations, 10.00

Extra charge for X-Rays, Pathological Laboratory, Special Medicines and Stimulants.

CORONER

Dr. Geo. Johnson. Res. Phone, R1213.

CITY ELECTRICAL ENGINEER

Superintendent of Electric Light Dept., Power Dept. and City Electrical Engineer.—R. Mackay.

The following departments are also supervised by the above official: Street Lighting, Garage, Electrical Inspection, Airport, City Hall Telephones. All engineering, construction and maintenance work in the above departments come under the supervision of the City Electrical Engineer. Engineering advice is extended to the customers of the system and construction is undertaken for private concerns if no other facilities are available.

Office—2nd Floor, Utilities Building.

Phone—M1151; Local 30.

Residence—718 Boulevard N.W.

Phone—L1618.

The Municipal Electric Plant originated by the passing of By-law No. 562; amount \$60,000.00; passed December 23rd, 1904, which was amended by by-law No. 619, effective September 20th, 1905.

The Electric Light and Power System cost approximately \$3,127,544.18, of which sum \$2,782,218.86 was derived from the sale of debentures (the majority having a lifetime of 30 years), the balance of \$415,325.82 being revenue contributions to capital.

Revenue is obtained from the following source : Rates, conduit rentals, service charges and sundry.

The revenue takes care of all departmental charges including sinking fund and interest, operation, maintenance depreciation, insurance reserve, repairs, \$60,000.00 per annum for replacement and improvement purposes, \$90,000.00, and a 5 per cent. tax on the gross earnings, the two latter payable to the general funds of the City.

Light Rates

For the first 300 K.W. hours: .05c per K.W. hour.
For the next 300 K.W. hours: .04c per K.W. hour.
All over 600 K.W. hours: .02c per K.W. hour.

Minimum charges 85c per K.W. of connected load.
A connected load considered as not less than one kilowatt.

Combination Rate

For first 25 hours, monthly consumption, .05c per K.W.H. Next 150 K.W. Hrs., $.1\frac{3}{4}$ c per K.W.H. All over 175 K.W. Hrs., 1.1c per K.W.H.

Minimum charge, \$1.77 per month.

Flat Rate

Flat rates for lighting purposes shall be charged at the rate of one dollar (\$1.00) for each 60-watt lamp or equivalent thereof.

Power Rates

(For installation where the demand is less than 100 h.p.)

When the characteristics of the combined electric light and power load are such as will insure a fair kilowatt hour consumption per month, per H.P. of connected load, the following special power rates will be given:

For the first 30 hours use of connected load in H.P. 2c per K.W. Hr.

For the next 30 hours use of connected load in H.P., .01.6c per K.W. Hr.

All over 60 hours use of connected load in H.P., .01.2c per K.W. Hr.

Up to 50-h.p. \$1.00 per h.p. per month.

Over 50 h.p. 75c per h.p. The connected load considered as not less than 3 h.p.

Heating Rates

.01 $\frac{3}{4}$ c per K.W. Hr.

Where a range and water heater is installed on a double throw switch and so arranged that the range cannot be used when the water heater is in operation, and vice versa, a special rate of .01.5c per K.W. hour will be given.

Minimum charge, \$2.00 per month.

Wholesale Power Rates

.01.3c to .010c per K.W. hour.

3% bonus for maintaining 85% Power Factor or better.

Rates quoted on request.

All subject to 15% discount on all bills paid within 10 days of date of issue of account.

No service charge. No meter rent. No ready-to-serve charge.

CENTRAL POWER STATION

Victoria Park (Exhibition Grounds).

Power House Phone—M1151; Local 25.

No. 1 Substation—M1151; Local 26.

No. 2 Substation—M1151; Local 22.

No. 3 Substation—M1151; Local 23.

No. 4 Substation—M1151; Local 24.

No. 5 Substation—M9195

Current Output

All current purchased from the Calgary Power Co., and distributed through the Central Power Station and Substations during the year 1941, 101,539,700 K.W. hours.

The maximum peak load during the year 1940 was 23,500 K.W. H.P.

Total Electric Current Supplied All Lines for All Purposes:—

1913	30,188,737
1918	40,063,640
1923	47,519,219
1928	68,046,023
1933	61,928,488
1938	73,810,814
1940	89,839,000
1941	101,539,700

Equipment of Central Power and Substations Consists:

Boiler—Water tube, equipped with chain grate stokers and superheaters. Area of heating surface is 78,252 sq. ft., producing nominal power of 7,600 boiler h.p. at working pressure of 160 lbs. per sq. inch.

Alternating Current Units—3, total capacity of 9,350 k.w.

Direct Current Units—550 to 600 volts. Street Railway Service, 7 machines, total capacity 5,600 k.w. 3 mercury arc rectifiers, capacity 24,000 k.w.h.

Exciter Units—3, at 110 to 140 volts, total k.w. 250.

Transformers—21,600 k.w., 3-phase step up or down 13,200 to 2,300 volts in Central and Substations.

ELECTRICAL INSPECTION

Rates on application.

Office—2nd Floor, Utilities Building.

Inspector—G. Notley.

Phone—M1151: Local 34.

Permits to install electric wiring and apparatus issued to licensed Master Electricians, Journeymen Electricians licensed by the City. Board of Examiners. City Electricians and one each, Licensed Journeyman and Master Electrician.

CALGARY MUNICIPAL LABORATORY

Office Phone—M1151; Local 75.

Conducts Tests and Analysis for all Civic Departments at scheduled fees. Tests and analysis are also undertaken on building materials, fuels, foods, water, etc., for private corporations or individuals.

THE CITY ENGINEER

City Engineer—J. R. Wood.

Office—Second Floor, City Hall.

Residence—818 18th Avenue West. Phone W4874.

Phone—M1151; Local 73.

All construction is carried out under the direction and supervision of the City Engineer, also maintenance and improvements. When advisable the Engineer is requested to compete with contractors by tendering on City works.

This official is also Chief Building, Plumbing and Gas Inspector and directs the Sewer and Paving Departments.

Municipal Paving Plant

This plant was erected in 1912 at a cost of \$100,000.00, and started operation that same year.

All indebtedness was paid off in December, 1930.

The plant not only paid for itself in its operations but has contributed considerably to the General Funds of the City.

It is responsible for the maintenance of 66.44 miles of paved streets, 208 miles of concrete walks, 115.45 miles of curb and gutter; concrete bridges, etc., and all repairs to streets caused by street railway, water works, electric light, gas and telephone company, etc.

It has been doing all new construction work and supplies material for City departments.

Since its operation the type of pavements laid has been asphaltic concrete, cement concrete, sheet and a small amount of cut back surfacing. It can produce almost any type of mix.

During 1929 a 1½ cu. yard concrete mixer was added, this addition proved very profitable in that it paid for itself the first year of its operation.

From this plant as in the case of the asphalt plant, all materials are screened and weighed (the concrete aggregates are washed) before going into the mixes. The mixed aggregates are delivered to the job thus eliminating mixing equipment on the streets which obstructs traffic.

Equipment comprises central mixing asphalt and concrete plants, rock crushers, road rollers, asphalt kettles, and all necessary street machinery.

It also operates a well equipped blacksmith shop for its own work and the added work of other departments.

Paved streets maintained.....	66.15 miles
Curb maintained	113.71 miles
Gutter maintained	113.71 miles
Sidewalk maintained	207.26 miles

Permits—Building, Plumbing—at Engineer's Enquiry Office

Phone—M1151; Local 61.

Building Inspector—Phone M1151; Local 72.

Plumbing Inspector—W. Weir.

Phone—M1151; Local 72. Residence—H2019.

Plumbers, Gas and Steam Fitters are required to pass an examination and to be licensed. Information in regard to the above can be obtained from Mr. W. Weir.

Plumbers' Licenses

Renewals each year—

Master Plumbers, Steamfitters and Gasfitters	\$10.00
Journeymen Plumbers, Steamfitters and Gasfitters	1.00
Drain Layers	1.00

Plumbing Permit

2 Fixtures or under	\$ 1.50
All over 2 Fixtures, per fixture	.75

Drainage Permits

Each	\$ 2.00
------	---------

Gas Permits

For first run of pipe to meter, a fee of one dollar (\$1.00).

For each additional run, a fee of 50c shall be charged.
(See By-law).

Plans and elevators of all plumbing to be filed. Soil pipe to be medium in a building under five storeys.

Soil pipe to be extra heavy in buildings over five storeys.

WATER WORKS

Engineer—Wm. E. Robinson, B.A.Sc., R.P.E., Alberta.

Office—Second Floor Utilities Building, 6th Ave. W.

Phone—M1151; Local 73.

Phone—M1151; Locals 56 and 57.

Collections Phone—M1151; Local 53.

Residence—519 18th Avenue West.

Phone—M2335.

The Municipal Water Works plant originated in the passing on July 31st, 1899, of By-law No. 386 in the amount of \$90,000.00.

The system cost approximately \$3,750,000.00, which money was derived from the sale of debentures, having a life of 30 years.

During the years 1930, 1931 and 1932, the Glenmore Supply was developed at a cost of \$4,051,000.00 and the Capital invested in the whole system amounts to \$7,888,873.25.

The Glenmore Supply consists of an impounding reservoir on the Elbow River, five miles from the centre of the City, of 18,000 acre feet capacity, having a water area of 1,000 acres, and surrounding land area of 1,400 acres. This is maintained by a dam 910 feet long, holding a 60-foot depth of water to the spillway level.

The Pumping Station is an integral part of the dam. Pumping capacity 44 m.g.d. Water turbine driven units 22 m.g.d. Electric standby units 22 m.g.d.

Filter Plant consists of three sedimentation and eight filter units, capacity 28 m.g.d. Purification—coagulation, sedimentation, filtration and chlorination.

All water is metered as it leaves the pumping station, the consumption varying from 14 to 30 m.g.d. The City is zoned, the central portion having a storage reservoir, capacity of 16,000,000 gallons and two higher areas are served by a 500,000 gallon and a 100,000 gallon elevated tank. Water is supplied to these two tanks through two booster pumping stations, that supplying the larger tank being 6 m.g.d. capacity, and the other $4\frac{1}{2}$ m.g.d.

Revenue is obtained from the following sources: Water rates flat and metered; an annual frontage tax of 10c per foot on unimproved property, and 5c per foot on improved property; sprinkler charge of 8c per sprinkler head; a yearly fire hydrant rental of \$40.00 per hydrant and sundry. The revenue takes care of all charges re. Water Works including Sinking Fund and Interest Operation and Maintenance, Depreciation, Repairs, Contingent and Insurance Reserves, Pension Fund and a 5% tax on the gross earnings, payable to the general funds of the City. The only portion of the Revenue derived through the Mill Rate is fire hydrant rentals and frontage tax, amounting to 1.16 mills, if the Revenue Tax is taken into consideration.

DOMESTIC RATES PAYABLE TO THE COLLECTOR

No. of Rooms	Rate per Annum	Rate per Annum
3	\$14.00	Additional conveniences as follows:
4	15.00	Basin in private dwelling, each
5	16.00	Water Closet, each
6	17.00	Baths, each
7	17.50	Sinks or additional fixtures, each
8	18.50	Terraced Lawns, per 1,000 sq. ft.
9	19.25	Lawns or Gardens, per 1,000 sq. ft.
10	20.00	Urinals, each
11	20.75	Horses, each
12	21.50	Carriages, each
13	22.25	Autos, each
14	23.00	Cows, each
15	23.75	Laundry Tubs, set
Each additional room	.75	Water Motors, each

Discount of 5% off above rates if accounts are paid within 10 days of date of account.

Commercial and special rates on application.

Sprinkler Heads—.08c per head.

A deposit of one month's water rate or a minimum of \$3.00 is required from non-owners.

SCHEDULE OF WATER RATES

Meter Schedule

(Minimum Deposit \$5.00)

First 5,000 gals.	per 1,000 gals.	40c
Next 5,000 gals.	per 1,000 gals.	36c

CAB TARIFF

Particulars may be obtained from the City Clerk or License Department

AUTOMOBILE

(Including taxi-cabs by the hour)

(a) For both metered and unmetered cabs, the minimum charge shall be 50c.

(b) Subject to the provisions of Subsection (a) hereof, all other tariffs and charges fixed hereby shall be considered to be maximum tariffs and charges may be varied accordingly.

(c) the tariff for metered taxi-cabs shall be as follows.—

For one or two persons for the first half mile or fraction thereof, 50c.

For each additional quarter-mile, 10c.

For each additional person over two, for the whole journey, 25c each person.

For waiting at the request of passengers whilst under engagement, 10c for every three minutes.

(d) The tariff for unmetered taxi-cabs shall be as follows:—

By the hour, 1 to 3 persons	\$3.00
By the hour, 4 or more persons	4.00
15 minutes or under, 1 to 2 persons	.50
15 minutes or under, 3 to 4 persons	1.00
15 minutes or under, 5 or more persons	1.25
15 minutes and not exceeding 30 minutes, 1 to 3 persons	1.50
15 minutes and not exceeding 30 minutes, 4 or more persons	2.00
30 minutes and not exceeding 45 minutes, 1 to 3 persons	2.25
30 minutes and not exceeding 45 minutes, 4 or more persons	3.00

(a) Fractions of hours for any drive exceeding one hour shall be charged at pro rata rates as above established for drives by the hour.

(b) Tariff shall apply to all drives exceeding beyond the City limits, providing the engagement is made and terminates within the said City limits.

(c) No fare shall be charged for children under eight years of age, in charge of an adult.

(d) No charge shall be made for travelling bags, valises, boxes or parcels which passengers can carry by hand.

(e) One trunk may be carried, for which a charge of 25c. may be made.

CHIMNEY SWEEPS.

(See By-law No. 1366 for full regulations).

Chimney Sweeps must be licensed. (Cost 5.00 per year).

Chimney and flues shall be swept as often as is necessary to keep same safe from fire.

The Chimney Sweep shall give a certificate showing the date the chimney or flue was swept or cleaned and in case of fire the certificate must be produced.

Charges for sweeping or cleaning chimney or flue:

For each in a one-storey house or building	\$1.00
For each in a two-storey house or building	1.50
For each in a three-storey house or building	1.75
For each additional storey	.25
For sweeping and cleaning furnace and flue, where pipe connection is in the basement	.75
For sweeping and cleaning furnace and flue, where pipe connection is above basement	1.50
For sweeping and cleaning each range or stove and flues connected therewith	.75

For definitions in computing rates, see By-law No. 1366, Section 88.

678 alarms of fire were received by the Fire Department during the year 1941, involving property

valued at \$2,460,331.52, of which amount \$334,850.18 was covered by insurance. Damage and loss to the extent of \$334,850.18 was sustained as a result of fires aforementioned.

CALGARY MUNICIPAL STREET RAILWAY (Operated by the City Commissioners)

Superintendent—C. Comba.

Phone—M3126.

Residence—2328 First Street East.

Phone—M7811.

Offices and Car Sheds—Second Street East and Elbow River.

The City of Calgary on July 5th, 1909, with 35,000 population, successfully inaugurated a municipally-owned modern Street Railway System.

\$250,000.00 by-law was passed in 1907 and one for \$226,000.00 in 1909, providing for the building, etc., of the Street Railway System.

With twelve modern pay-as-you-enter cars the first six months' operation returned operation and interest charge and \$10,000.00 surplus for Contingent Account.

Construction was begun in September, 1908, and one-half-mile of track was laid that fall. On May 1st, 1909, work was recommenced. The power generator arrived July 1st, and the first two cars on July 2nd. The Railway officially opened at 8.00 a.m., July 5th, 1909, with two cars covering the half-mile between City and Fair Grounds.

During Fair Week 35,460 passengers were carried.

Work was carried on by five paving contractors, one track construction company (on unpaved section only), the City doing all special and overhead work and intersections.

One-man cars were introduced on all City lines in 1917, and are proving satisfactory. Safety of operation is secured, together with a substantial decrease in the cost of operation.

Two Leyland 29-passenger Busses were purchased and put into operation on February 16th, 1932, after a three-months' trial on a route in the Mount Royal District which had no transportation service. Early in the summer of 1934 bus service was extended to Rosedale. Fares on both bus routes are the same as Street Railway fares.

All the line feeders within the business area have been placed underground.

The Power Department of the City charges the Street Railway for power as follows: .75 of .01c per k.w. hour for the first 800,00; all over 800,000, .70 of .01c per k.w. (See Equipment).

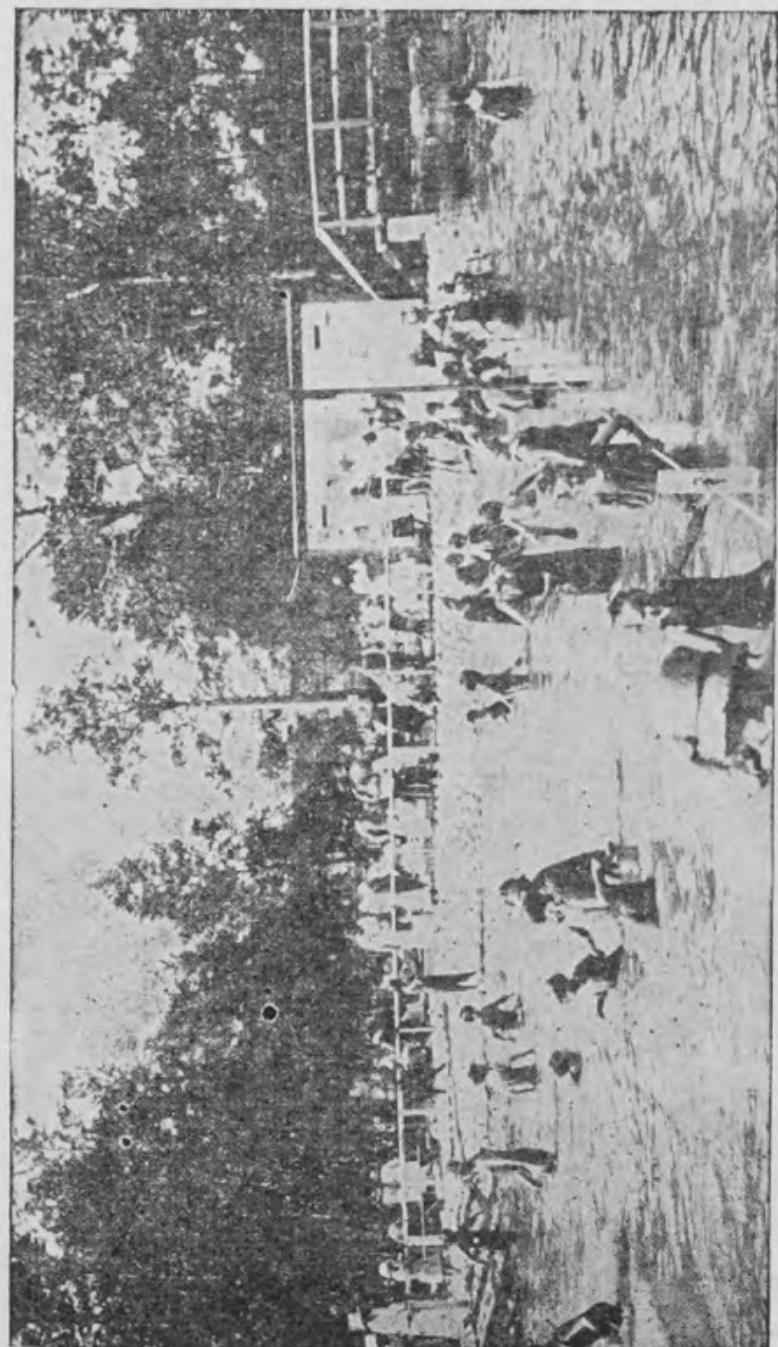

Five classes of tickets are used: Children up to 15 years of age, 10 for 25c, good any time; Students 10 for 25c, good to or from school or college; Adults,

16 for \$1.00, 4 for 25c, 2 for 15c; and City Employees, 16 for \$1.00 (the latter are charged to the departments in which they are used). Cash Fares: Adults, 10c; Children 5c. After 12.30 p.m. double fares apply.

Free transfers are given for continuous trip.

There is organized in the department a Street Railway Men's Sick Benefit Association. Employees' wages are on a sliding scale, ranging from 54c per hour to 87½c per hour.

Bowness Park—An island on the Bow River, 80 acres in extent, and situate eight miles west of the city. Is operated by the Municipal Street Railway as an amusement park.

Reservoir Park—This park is 83 acres in extent and is situate approximately three miles from the Post Office. It contains the City Reservoir and storage of water, and is under the charge of the Water Works Department.

Exhibition Grounds (Victoria Park)—One hundred and three and one-half acres. Entrances, Seventeenth Avenue and Second Street East, Seventeenth Avenue and Fourth Street East. Comprises all territory between Seventeenth Avenue, Second Street East and Elbow River. Contains Exhibition Buildings valued at approximately \$500,000.00, including fireproof Grandstand, accommodating 9,200; Cattle Pavilion for 600 head. The annual Exhibition (over 210,000 attendance), is held here, as well as the Alberta Winter Fair, Horse Show, Purebred Cattle, Sheep and Swine Sales, Wool Sales, Poultry Show, Bonspiel, Hockey and Skating Rinks, Boxing Events, etc. City Stores, Power House and Street Railway Barns location. Spur track (C.P.R.) enters park at northeast corner.

The Parks Department annually earns a revenue of approximately \$25,000.00 through fees of various kinds and the sale of surplus produce, etc., thus materially reducing the cost of Park maintenance to the taxpayer.

CALGARY VACANT LOTS GARDEN CLUB

Office—Ground Floor, City Hall.

Phone M1151; Local 69.

Honorary President—James H. Garden.

Honorary Vice-President—Ald. H. R. Chauncey.

Past President—W. E. Sandstrom.

President—H. C. Butler.

Treasurer—H. M. Turtle.

Secretary—J. H. McKay.

Meetings of the Executive Committee are held in the office of the Club on the third Wednesday of each month at 8 p.m.

The Calgary Vacant Lots Garden Club was organized in March 1914, for the purpose of encouraging the cultivation of vacant lands in the City and is recognized as the largest Club of its kind on the North American Continent. Being sponsored by the City Council, who provide the Club with lots required for garden purposes, also hundreds of owners of private property have donated the use of their lots for this work.

For administration purposes a registration fee is charged members.

In 1941 the Club had 1,923 members using approximately 2,937 vacant lots for the growing of vegetables and flowers. (A lot has an area of 3,000 square feet.)

Gardens are judged by qualified gardeners during July and August, and prizes awarded in each of the 12 districts of the City at the annual meeting which is held in November, when officers are elected for the ensuing year.

CALGARY HORTICULTURAL SOCIETY

President—Andrew Murdoch, 904 Blvd. N.W.

Hon. Secretary—John Virgo, 1313 9th Ave. E.

Hon. Treasurer—Mrs. B. M. Trigg, 904 Blvd. N.W.

This Society, the pioneer organization of its kind in this City, was organized in 1907. It has been an important factor in developing the "City Beautiful" idea, by encouraging the beautification of home surroundings and the cultivation of gardens. It annually holds a competitive Horticultural Exhibition, which is one of the social events of the year.

Each winter a course of meetings is held for the giving of lectures and the discussing of subjects connected with the theory and practice of gardening.

The objects of the Society are to encourage horticulture in all its branches.

CALGARY PUBLIC LIBRARY

Those of our citizens possessing literary tastes may, on becoming members of the Calgary Public Library, have access to various works of literature by the world's best authors. (See index "Library").

Twelfth Ave. and Second St. W. (Memorial Park).

Secretary-Treasurer and Librarian—Alexander Calhoun, M.A.

Library Board—See Index.

Phone—M3524.

Hours of Opening

Week days 9 a.m. to 9.30 p.m.

Wednesdays 9 a.m. to 1.00 p.m.

July 1st to Sept. 15th 9 a.m. to 6 p.m.

Sundays Closed all day

The Library is closed entirely on New Years' Day, Good Friday, Victoria Day, Dominion Day, Labor Day, Thanksgiving Day, Christmas Day and Boxing Day.

Crescent Heights Branch

1806 First Street N.W., in the Hicks Block.

Open from 2 to 5.30 p.m., Mondays, Wednesdays, Fridays and Saturdays; and 7 p.m. to 9 p.m. on Mondays (Adults), Tuesdays, Thursdays and Saturdays.

Membership

Any citizen of Calgary is entitled to a free membership on signing an application card, proving his address and furnishing the names of two friends.

History

It is about thirty-three years since a little group of Calgary citizens began to interest themselves in securing for Calgary a Public Library. Calgary was at that time a City of only about 15,000, and it took some

time for a scheme to mature. However, in 1908, Library Board was formed; in 1909 a building was begun, and on January 2nd, 1912, it was opened to the public.

The building and equipment have cost \$100,000.00. Of this sum \$80,000.00 was provided by Mr. Andrew Carnegie and \$20,000.00 by the City Council.

It is noteworthy that this Library was the first Public Library in Alberta, and the second between Winnipeg and the Rockies.

Constitution

The Calgary Public Library is administered by a Library Board of seven members, the Mayor being an ex-officio member, and the remaining six being appointed by the City Council for two years.

The Library is organized under the Provincial Libraries Act, which empowers the City to levy a library rate not exceeding one mill on the dollar on assessable property.

Statistics, 1941

Total number of volumes	57,120
Total number of borrowers	26,633
Total circulation	455,669
Total civic grant	\$36,000.00
Per capita cost to City (Taking population as 88,000).	41 cents

PROVINCIAL NORMAL SCHOOL

Principal—H. Swift, M.A., Ph.D.

Location (temporary)—King Edward School, 17th Street and 29th Avenue S.W. (Regular building being used by No. 2 Wireless School of Commonwealth Air Training Scheme).

Established on the formation of the Province of Alberta in 1905 for the training of teachers for the Public Schools.

Length of Course—8 months, September to June.

Educational standard required for admission—Grade XII, or equivalent

On the completion of this course candidates receive an Elementary and Intermediate School Certificate valid for three years. This Certificate is made a permanent Professional Certificate after two satisfactory reports from the Inspector and on his recommendation, and on the completion of at least one Summer School Course.

The Normal School is controlled directly by the Provincial Department of Education. Application for admission as well as for information in regard to standing in this Province of qualifications obtained elsewhere, should be made to the Deputy Minister of Education, Edmonton.

For the first two years of its existence, the Normal School occupied rooms in the Central Public School. In 1907 the Normal School Building on Sixth Street West was completed and here the work was carried

on until July, 1922, when the Normal School was moved to occupy the west end of the new building erected for the joint occupation of this School and the Institute of Technology and Art.

PROVINCIAL INSTITUTE OF TECHNOLOGY AND ART

Principal—James Fowler, M.A., B.Sc.
Phone R2683.

Evening School Director—F. G. Young, M.A.
Phone M2283.

Location—Victoria Park, 2nd Street East and 17th Avenue. Grand Stand Building of the Calgary Exhibition and Stampede Limited.

In 1916 the Provincial Government, through its Department of Education, established the Institute of Technology and Art in Calgary. It was housed temporarily in school buildings in East Calgary until the three new buildings were designed, completed and occupied in the fall of 1922.

The commodious accommodation of the Institute of Technology and Art provided on the North Hill, has been given over, on loan for the duration of the war, to the R.C.A.F. to be used as a Wireless Training School, under the Commonwealth Air Training Plan. For this period the Institute is housed very comfortably and acceptably in temporary quarters in the Grand Stand Building in Victoria Park, generously loaned by the Calgary Exhibition and Stampede Limited. In this building the complete program of the Institute is conducted.

The type of instruction given at the Institute is of an advanced vocational or semi-professional character. In each course half-time is devoted to shop work, conducted as far as possible under industrial conditions, the remaining time being devoted to class-room work in such allied subjects as mathematics, drafting, science, English, and the theory of the particular course taken.

In addition to the regular program special emergency programs are conducted to prepare young people to enter war industries or to enlist in the Royal Canadian Air Force.

At the present time courses are given in the following subjects:

Full Day or Part Time Courses in—

Aeronautics.

Industrial Electricity.

Motor Mechanics (Automobile).

Tractor Engineering and Diesel Engines.

Automotive Electricity.

Building Construction and Drafting.

Mechanical Drafting.

Survey Drafting.

Dressmaking and Millinery.
 Farm Construction and Mechanics.
 Arts and Crafts.
 Acetylene and Electric Welding.
 Art, General Shop for Teachers.
 Machine Shop Practice.

For the year 1940-1941 the enrolment in the various courses was as follows:

Enrolment, 1940-1941

	Day	Even- ing	Night	Corres- pond- ence	Tot
Aeronautics	56	31	—	—	87

Note:—From the year 1906 the figures given are based on the average monthly enrolment.

Schools, 1941—39 Public, 3 Senior High, and 7 Junior High.

CALGARY SCHOOLS

There are three main divisions in the school organization, the Elementary School composed of Grades I to VI for pupils of six to twelve years, the Junior High School or Intermediate for pupils of Grades VII.. VIII. and IX., and the Senior High Schools for pupils of Grades X., XI. and XII.

In the Elementary School all pupils pursue the same studies: English, including Reading, Literature, Speech Training, Language and Spelling; Arithmetic, Social Studies, Elementary Science and Health Education, Physical Education, Art and Music.

In the Junior High School grades for pupils of from twelve to fifteen years of age, there are both compulsory and optional studies. The compulsory subjects are English, Social Studies, Mathematics, General Science, Health and Physical Education. The optional studies are Art, Music Dramatics, General Shop or Household Economics, French and Book-keeping. It is expected that pupils who plan continuing their school education beyond the Junior High School stage will be enabled through a sampling of the various optional studies to choose those courses in the Senior High School which are suited to their aptitudes and abilities.

The Senior High School offers the following courses: Matriculation, Normal Entrance, General and Technical. Grade IX standing is requisite for admission to any Senior High School.

At Central High School and Crescent Heights High School Matriculation and Normal Entrance courses are offered as well as General courses, with options in academic subjects.

At Western Canada High School full technical courses are offered as well as general courses with options in technical subjects. The technical subjects include Drawing and Design, Electricity, Fabrics and Dress, Household Economics, Mechanical Drawing, Metals, Motor Mechanics, Needlework, Printing and Woodwork.

The Commercial Department of the Western Canada High School provides courses of three years, two years and one year to students who have completed Grade IX, Grades X and XI, and Grade XII courses respectively in other schools. The specialized commercial subjects offered in this school are Typewriting, Stenography, Bookkeeping, Office Practice and Commercial Law.

Night Classes

Evening Classes in Shorthand, Typewriting, Book-keeping, Penmanship and Commercial Law, in Matriculation subjects and in Shop and Household Economics subjects are given each year from September until April. Courses in Physical Training, Speech Training, Dramatics and other subjects are given if there is sufficient demand for them. All night classes are held in Western Canada High School.

The enrolment in Commercial classes in November, 1940 was 64, in Matriculation classes 81, in Technical classes, 88. Thirteen teachers were employed.

Non-Resident High School pupils are charged the following fees:

Grades X and XI., \$70.00.
Grade XII., \$80.00 per year.

Western Canada Composite High — X and XI,
\$70.00; XII., \$80.00.

Public School Debenture Debt, December 31st,
1941, \$1,560,366.67.

Note: From the year 1918 on, the figures given are based on the average monthly enrolment. Prior to that time the figures are the total enrolment taking the year as a unit.

Debenture indebtedness, December 31st, 1940—\$34,000.00.

St. Mary's Boys' and St. Mary's Girls' Schools give the complete Academic High School Courses.

The resident students attending the city Catholic schools who have completed Grade IX and wish to take a Technical or a Commercial Course may do so at the Western Canada High School. The Separate School Board will pay their fees.

In addition to the regular classes there are in operation at Holy Angels' School a Household Economics Centre for the girls of VII to IX. A General Shop Centre for the boys of the same grades and an opportunity class for retarded pupils.

THE CALGARY COUNCIL OF SOCIAL AGENCIES

Family Welfare and Social Service Index

President—John E. Wodell.

Hon. Secretary—Mrs. Ian MacKenzie.

Phone M7675.

Hon. Treasurer—Mrs. T. J. S. Skinner.

Family Welfare Bureau

705 3rd Street East.

Supt. of Welfare Dept.—Mrs. E. A. McKillop.

Phone M3715.

Supt. of Social Service Case Work—Miss M. Livesay. Phone M3715.

Social Service Index

Secretary—Miss P. L. Pue. Phone M3711.

The objects of the Council of Social Agencies are the study and development of social and welfare work, both public and private, in the City of Calgary; to endeavor to secure co-operation between all the different organizations engaging therein, and to provide a medium for the exchange of ideas and experience for the purpose of assisting in carrying on these services in the most economical and efficient manner possible.

CHILDREN'S AID AND JUVENILE COURT

Superintendent—Fred Gardener.

Residence Phone—W2342.

Office—Fourth Floor, Police Building.

Phone—M1151; Local 77.

The Children's Aid is a civic department, administering the Child Welfare Act, the Juvenile Delinquents Act and the Mothers' Allowance within the City of Calgary only.

Juvenile Court is held in the main office of the Childrens' Aid Department on the Fourth Floor of the Police Building at Calgary. The presiding judges are: Mr. A. W. Hobbs and the Reverend W. Bainbridge.

The activities of this Department include, investigation of cases of neglect and delinquency, probation, child placement, conducting of the Juvenile Court, supervision of licensed newsboys, prohibition of attendance of juveniles in billiard rooms and dance halls.

Information concerning the protection or adoption of children can be obtained from the Superintendent or officials at the office.

THE PROVINCE OF ALBERTA

Area and Size of Alberta

Length from North to South—750 miles.

Width at its widest part—400 miles.

Area of Land—161,872,000 acres.

Area of Water—1,510,400 acres.

Population of Alberta

1941 Federal Census	788,393
---------------------	---------

Coal

It has been estimated that there are, in the Province of Alberta, 1,035,629,000 tons of coal available, or approximately 14½ per cent. of the world's supply.

Timber

The area covered by merchantable timber in the Province of Alberta is approximately 5,416,000 acres and Alberta Forestry officials estimate that there are 16,900,000,000 feet of merchantable timber, covering an area of 60,000 square miles, and 270,000,000 cords of pulpwood, covering an area of 60,000 sq. miles, in the Province.

PROVINCIAL LEGISLATURE
Calgary Members
Elected March 21st, 1940

- A. Davison, (Independent).
W. Aberhart (Social Credit).
F. Anderson (Social Credit).
J. C. Mahaffy (Independent).
J. J. Bowlen (Independent).

How Alberta Voted

Social Crediters Polled 43%, Independents 42% in Record Vote.

Albertans set a record vote in the March provincial election with a total of 306,240 ballots in all constituencies, as shown by complete reports compiled by the Canadian Press.

The record surpassed by 4,488 the 1935 Alberta election, when 301,752 ballots were cast.

"Social Credit" candidates polled 131,918 votes, or 43.08 per cent. of the total, compared with 59 per cent. in 1935.

Independents, a combined opposition of various parties, received 42.49 per cent. of the total with 130,118 votes. Lesser groups accounted for the remainder.

Final official counts, still unavailable from some constituencies, may change the party-vote and total figures slightly.

The Canadian Press compilation is based on figures reported in first counts in the 49 constituencies, not on final counts which in some cases decide a candidate's election under the proportional representation and transferable vote systems in Alberta.

	1940	1935
Social Credit	131,918	163,700
Independent	x130,118	—
